## Dining Services Survey

In November, over 1,600 WMU students completed the National Association of College and University Food Service Benchmarking Survey. WMU Dining Services was one of 96 colleges and universities that participated in this national survey, and we found that your satisfaction with our services met or exceeded that of college students dining on campuses all over the country. You told us that Dining Service had improved several factors relating to food, menu, service, cleanliness, and dining environment compared to last year. We will be looking closely at your comments to determine how to serve you better next year. Additionally, we will follow up with an online survey to obtain specific feedback for areas you identified for improvement. Dining Service thanks you for your assistance by providing this valuable feedback.
