| Job Title: Jeter's Leaders College Buddy (LHC Students) | | | | | | | | | |
| Job Description: Jeter's Leaders is a youth leadership development group for high school students; the group consists of 33 students in grades 9-12. We meet regularly with them and provide programming on leadership development. The students also act as mentors to their peers and younger children by promoting Derek Jeter's life lessons from his book, <u>The Life You Imagine</u> . We emphasize academic excellence, college readiness, career exploration and healthy lifestyles. The job description for the College Buddy would be to meet with the Jeter's Leaders, either individually or in groups, to further any of the ideas above. Our students will benefit greatly by learning from college students how to get ready for this next step in their lives. This may be by attending a sporting event together on campus or any other appropriate activity to introduce them to college life. We have not tried this before so the role will evolve. | | | | | | | | | |
