

## LEE HONORS COLLEGE

The mission of the Carl and Winifred Lee Honors College is to provide a lively, rigorous undergraduate program for bright, highly motivated, and active students. The College was founded in 1962, and because of its continued leadership in the national honors movement, it remains a well-respected center for academic training among the 500 institutional members of the National Collegiate Honors Council.

Nearly one thousand students participate in a learning and living environment that provides undergraduates with the sense of being enrolled in a small private college, but with the resources of a major university. The Lee Honors College offers a four-year academic program, co-curricular activities, and special opportunities to complement all disciplinary majors.

Freshman and sophomore-level students take linked courses built on the learning community model. General Education courses are grouped around a general theme or major issues in order to present a more coherent view of knowledge or methodology. A cohort group of students attends two or three courses or integrating seminars where connections among the disciplines are drawn and assignments are made which are common to the linked classes. Varieties of clusters are offered every semester, including “Mind and Body,” “Science and Technology,” “Exploring These United States,” and “Looking into Nature and Outdoors.”

At the junior and senior levels, honors course selections consist of seminars with special topics, which bring together interdisciplinary approaches to issues, events, or problems. Honors students take a minimum of two seminars and may substitute a research-oriented independent study, foreign study, or an internship for one of these two upper-level honors course requirements.

A thesis, extended project, or performance serves as a capstone to the four-year program. This culminating activity focuses and applies knowledge and skills of the entire honors program through critical thinking and creative expression. Upon completion of the honors program, students graduate from Lee Honors College with recognition in the commencement program and on the diploma and with special notation on the academic transcript.

To assist students in the thesis process, there is The Dean’s Summer Research Thesis Award, and the Honors College also administers the Siebert Undergraduate Research and Creative Activities Award program for the University. Unique opportunities are provided through various internships for honors students to learn from valuable contacts with experts in a variety of fields and for each student to gather data for his or her thesis.

The Lee Honors College recruits and advises qualified applicants from the entire University community for prestigious scholarships: The Rhodes, The Gates Cambridge, The British Marshall, The Goldwater, The Truman, The Mellon Fellowship, and The Morris K. Udall Scholarship. Highly qualified WMU candidates have recently been recognized nationally; these include two Truman finalists, one Truman winner, two Goldwater winners, four Morris K. Udall winners, two state finalists for the Rhodes and The British Marshall, and three Rotary International Ambassadorial Scholarships. Most recently, one of our students was selected for a Gates-Cambridge Scholarship.
