

Blurb for universities to put on their websites:

The Imagine Fund will award multiple scholarships from three sources to academically qualified and economically challenged Black and Latino students who are enrolled in at least 12 credit hours at junior or senior status by institutional definition. Applicants must meet additional criteria, i.e., specific major and have graduated high school from specific city or county. For general information, applicant criteria and an application go to www.theimaginefund.com. Committed to inclusion and equity on Michigan college campuses, The Imagine Fund awards its own funds as well as those from donors who are similarly committed to diversity.
