

Paper Engineering, Chemical Engineering & Imaging Armstrong Energy Management Scholarship Application Form

The Armstrong Energy Management Scholarship is limited to students in Chemical Engineering or Mechanical Engineering who are pursuing a sequence of courses that can lead to certification as an energy manager. These courses are listed in the Energy Management option of the Chemical Engineering program. Scholarship awards are based on class standing, academic achievement, and demonstrated commitment to energy management. Awards are for the academic year and renewable, upon application, for a second year. Partial awards are available for part-time students in special circumstances. The number and award amounts of scholarships will depend upon the availability of funds.

Overall GPA

Indicate which of the following courses you have completed and the grade earned:

		Grade
CHEG 4440	Energy Management Engineering	
CHEG 3100	Industrial Experience	
PAPR 4840	Process Control II	
ECE 2100	Circuit Analysis	
ECE 2110	Machines and Electronic Controls	
PAPR 4520	Air Pollution & Solid Waste	
ME 4320	Thermodynamics II	
ME 4330	Environmental Systems Design	
ME 4390	Thermal Systems Design	
IME 1420	Engineering Graphics	

What other scholarships are you receiving (or expect to receive) and their amounts?

Armstrong Energy Management Scholarships are awarded annually, with half the amount credited to the students financial aid account at the beginning of each semester. Awardees must maintain at least a 2.5 GPA to receive the award in the second semester. Application deadline is April 15 for the next academic year.

By signing below, you agree to the conditions of the award.
