

Assessment Plan
Western Michigan University

Academic Skills Center

Outcome: Grade Difference

The average grade for the course for those students who regularly (i.e., more than one or two attendances) participate in Supplemental Instruction will be higher than the average grade for the course for those students who did not participate in SI.

Outcome: SI Attendance

At least 25% of the students eligible to participate in SI will attend at least three SI sessions during the semester.

Outcome: Documentation of Learning (SI)

In 80% of the SI, tutoring, or CSS sessions observed by the director, students in attendance will exhibit evidence that learning occurred within the session (as judged and recorded by the ASC director).

Outcome: Tutor Certification

All student staff hired as SI leaders, tutors and seminar leaders will receive training sufficient to move them through their applicable tutor certification stages.
