Note: Courses must begin on the hour or half-hour.

Courses which may be scheduled on Saturdays are outside this matrix and are not restricted to these times.

The "Matrix Exception Request" form can be found online at <http://www.wmich.edu/registrar/faculty-staff/builders/index.html>. This form must be submitted with sufficient rationale for consideration, first to the appropriate college dean. After college approval, the request will go to the registrar for final approval.

Questions regarding the matrix? Call Laura Thomas at 7-4308 or Michele McLaughlin at 7-3869.

Classes where the lecture and laboratory sections meet separately should follow the begin times based on the contact time for each portion.

For example, a 4-credit hour course with the lecture meeting 3 hours per week and the laboratory meeting 1 hour per week, the lecture begin time should be based on the approved class meeting times for a 3-credit hour course, and the laboratory should begin on an approved begin time for the day on which the laboratory is being offered.
