Generational Divide

Four distinct generations are working together shoulder to shoulder, each with a unique set of attitudes, values and work styles. It used to be that older workers were bosses and younger ones took orders. Now, roles are all over the map and rules are being rewritten. Organizations are feeling the pain of generations as they struggle to manage productivity and morale while maintaining high standards of quality and service in a challenging economy. This program will give you the tools to convert this form of diversity from an obstacle into an opportunity.
