This intensive week-long course is designed to provide participants with the skills and experience necessary to develop a permaculture landscape on their property. Homeowners, educators, gardeners, landscapers, architects, students, farmers, elected officials, and green entrepreneurs will benefit from this course.

The workshop will be led by Bill Wilson of Midwest Permaculture. Wilson has hosted and taught over 50 PDC courses. He holds two Permaculture Design Course Certificates and two Advanced Training Certificates. Wilson also has lived in a sustainably-oriented community for 36 years. Helping Wilson with part of the course will be local permaculturists Brian and Josh Shultz. Brian runs Fair Lake Farm and Josh operates Cedar Creek Permaculture.

Permaculture is:
- Designing ways in which we can live abundantly
- Leaving the planet in better condition
- Systems that mimic the patterns found in nature
- Grounded in a respectful approach to all

Course covers application of permaculture principles to:
- Food production
- Home design and construction
- Energy conservation and generation
- Social and economic structures

What you can expect: Great people (local residents and fellow students), enlivened classroom presentations, hands-on exercises, a close up look at permaculture applications and installations, design exercises, wonderful meals, and more.

Cost with lodging at Pierce Cedar Creek Institute:
- Members $1,345  |  Non-Members $1,375  |  All meals are included

Cost without lodging:
- Members $1,145  |  Non-Members $1,175  |  All meals are included

Registration deadline for the Permaculture Course is May 1, 2015

To register, visit cedarcreekinstitute.org

A $250 non-refundable deposit is due at the time of registration with balance due on May 1, 2015.
