Making the Most of Your Social Security Meeting

Register today for your personal my Social Security account at www.socialsecurity.gov/myaccount.

Setting up a my Social Security account is quick, secure and easy. Once you have an account, you can access your Social Security Statement, request a replacement Social Security card and, once you begin receiving benefits, maintain your benefits online.

The Statement is a personalized financial planning tool that shows you how much you’ve earned over the years and what you can expect to receive from Social Security when you retire.

Once you have set up your my Social Security account, please remember to print your Social Security Statement and bring it with you to the meeting. It will be useful to you when the presenter explains its various features.
