Sync Google Calendar with iOS

2-Step Verification must be enabled on your account and an Application-Specific password must be generated before syncing your device with Google Calendar. If you have not done so, please visit www.wmich.edu/google/help-support for instructions.

1. Launch the Settings application
2. Select Mail, Contacts, Calendars
3. Select Add Account
4. Select Other
5. Choose Add CalDAV Account
6. Enter the following settings:
   
   Server: google.com
   User Name: WMU email address
   Password: Google App-specific password
   Description: (Enter description as desired)

7. Select Next
8. Select Save. Your iOS device is now configured to sync with your Google Calendar.
