Western Michigan University Interdisciplinary Health Services Curriculum Guide

The Interdisciplinary Health Services major is designed to serve four populations:

- Students who want to prepare for administrative and other non-clinical positions;
- Students interested in applying to the 4+1 Occupational Therapy program leading to a master’s degree in Occupational Therapy. Admission to the program is competitive and requires a separate application. Visit the OT website regarding this process;
- Students interested in health and human services graduate programs such as Physician Assistant (PA). Advisors will custom build programs to prepare students for graduate work;
- Students already working in health care who hold associate degrees or certificates in health related areas. This degree completion program can be completed on the main WMU campus or online.

Admission Requirements:

- A minimum of 30 academic credits and completion of pre-professional prerequisites for the College of Health and Human Services program with a cumulative grade point average of 2.5;
- Or a minimum of 30 academic credits with a cumulative grade point average of 2.5 and current registration, certification, or licensure as a health or human services provider. These students will receive academic credit for professional course work completed through accredited associate degree programs on a course-by-course basis.
