Please note that Immigration Services recommends that the sponsoring department carefully time the submission of a DS-2019 application with the possible visa delay at an overseas U.S. consulate in mind. For more information, please contact Immigration Services at (269) 387-5865. Please note: J-1 visiting scholar requests first require clearance from the Western Michigan University's Export Control Committee at the Office of the Vice President for Research. Please contact OVPR at (269) 387-8293 or via email at research-compliance@wmich.edu for an export control decision.

Scholar's Name: ____________________________________________
