"What is the future of Asylum Lake?"
Asylum Lake Preservation Association annual meeting will be held at the Parkview Hills Clubhouse
7:00 p.m., Tuesday, May 1.

A panel of experts involved with the Preserve will bring us up to date on the effects that recent developments could have on the property. These developments include:

• Business Technology Research Park II starts construction across Drake Rd from the Preserve in 2018

• The property at the NE corner of Stadium and Drake Rd., the former VerMeulen property, has been rezoned commercial in the City’s new land use plan. This property has been sold to a developer who plans to build a car wash and a condo development at the site.

ALPA has helped protect this fragile ecosystem for many years. It’s important that we inform others about all these developments and discuss what we can do to mitigate their effect on its natural features.

Please join us, get informed, and give ALPA your input.

You can also join us for a spring clean-up at Asylum Lake Preserve. We will meet at the Drake Rd entrance on May 5 at 1:00 p.m.
