Two commencement ceremonies set

WMU will grant degrees to nearly 1,500 students during two commencement ceremonies Saturday, June 30, in Miller Auditorium. President John M. Dunn will preside over the summer ceremonies. Visit wmich.edu/commencement for complete details.

A ceremony will be held at 9 a.m. for graduates of the colleges of Education and Human Development and Engineering and Applied Sciences, Extended University Programs, and the Haworth College of Business. The second ceremony starts at noon and is for graduates of the colleges of Arts and Sciences, Aviation, Fine Arts, and Health and Human Services.

Teaching assistants’ contract approved

Acting at their June 7 meeting, WMU trustees approved terms of a new three-year contract with the University’s Teaching Assistants Union that is effective for the start of the 2012-13 academic year. The contract elements were ratified by the WMU chapter of TAU during a May 23 union vote.

They include a 1 percent wage increase for graduate assistants at both the master’s and doctoral levels, while doctoral associate wages remain frozen for the term of the contract; one additional credit hour per semester for graduate assistants during each of the contract years, taking the level for graduate assistants from six to nine credits; and an annual health care premium subsidy of $1,025 for all TAU members who participate in WMU’s health care insurance program.

University to offer new programs

Since spring, the WMU Board of trustees has signed off on the creation of several new academic programs.

The Graduate Certificate Program in Spiritual, Culture and Health is designed to be delivered online and to help health professionals who work with individuals to ensure their spiritual and cultural needs are met. The program will be administered by the College of Arts and Sciences.

led by the College of Business. It is for graduates of the colleges of Business, Human Development and Engineering and Applied Sciences, Extended University Programs, and the Haworth College of Business.

The Graduate Certificate Program in Teaching Fellowships. This statewide initiative aims to improve student achievement by placing career changers or recent college graduates who are particularly talented in math, science or technology. Michigan Gov. Rick Snyder unveiled the 2012 cohort at a press conference in Lansing June 13. This is the second year of the program in Michigan. WMU and five other state universities are each training a class of fellows. The students were selected for this competitive fellowship for their strong backgrounds in what are known as STEM disciplines—science, technology, engineering and mathematics.

“Great teachers and great teaching can make all the difference for our students, their educational growth, future success and quality of life,” said Snyder in announcing the new fellows. “The W.K. Kellogg Foundation’s Woodrow Wilson Michigan Teaching Fellowship is making tremendous strides toward the goal of providing children across Michigan access to highly effective educators in these critical subject areas, and I commend this work and look forward to its continued role and achievements.”

The Wilson fellowship program, which is offered in other states, aims to attract the best candidates to teaching, cut teacher attrition, put talented educators in high-need schools and help them stay.

Snyder announces new Wilson Fellows cohort

An engineer who holds 55 patents, Richard McCoy, is among 13 highly skilled people who are pursuing specially designed master’s degrees at WMU to prepare for careers as science and math teachers in high-need public schools.

Each of the 13 has received one of the W.K. Kellogg Foundation’s Woodrow Wilson Michigan Teaching Fellowships. University to offer new programs

Since spring, the WMU Board of trustees has signed off on the creation of several new academic programs.

The Graduate Certificate Program in Spiritual, Culture and Health is designed to be delivered online and to help health care workers understand and work with the connection between spiritual beliefs and clinical care outcomes.

The Doctor of Philosophy in Science Education now has concentrations in biological sciences, chemistry, geosciences, geography and physics.

The new Master of Arts in Leadership for Organizational Learning and Performance, an enhancement of the former M.A. in Human Resources Development, is being offered at WMU’s regional location in Grand Rapids, Mich., as well as on the main campus.

Western News goes on summer hiatus

Today’s issue of Western News is the last issue for the summer. Western News will resume its regular publication schedule Sept. 6—the first Thursday after the start of fall semester. During the hiatus, visit the WMU News website at wmich.edu/wmu-news to keep up with everything happening around campus.
Annual competitive cycling event scheduled

Cyclists are gearing up for WMU’s seventh annual competitive cycling day set for 8 a.m. to 5 p.m. Saturday, July 14, at the Parkview Campus.

The 2012 Miller Energy Criterium is being organized by WMU and the Kalamazoo Bicycle Club. It will include 11 separate races throughout the day for participants of every age and ability level.

Online registration ends at 11:59 p.m. Thursday, July 11. Race-day registration will open at 6:30 a.m. on site in the Southwest Michigan Innovation Center and close 30 minutes prior to each race. Registration for the kid’s race is free. The entry fee for all other races ranges from $10 to $30.

Racing will begin with the Men’s Elite 4 event at 8 a.m. and conclude with the Junior ages-10-to-14 event at 5 p.m. A race for kids of all ages will be held at 1:15 p.m., with free helmets given out to participants while supplies last. A total of $6,000 in prize money will be awarded during the 2012 criterium.

Rain or shine, competitors will race around a 1.1-mile course that features smooth pavement with three 90-degree turns and multiple sweeping turns.

The criterium is the most popular form of bike racing in the United States. It is the cycling equivalent of the Indy 500—full of high speed and intense action. Cyclists race on a closed-circuit track, completing each lap in about one minute while traveling at speeds in excess of 30 mph as they race to be the first to cross the finish line without being passed.

A short, closed course makes criterium cycling an ideal spectator sport. For WMU’s event, spectators may park at the University’s soccer field off Parkview Avenue east of Drake Road, then watch the fast, aggressive action free of charge. Food and beverages will be available for purchase, and vendors will be on hand offering cycling gear and accessories.

The Miller Energy Criterium is part of the area’s Race Weekend activities that also include a community fair, open house events at the fort, which is near Niles, Mich. This free event typically features displays, viewing of excavations and informational talks.

Promotions approved for 37 faculty members

The WMU Board of Trustees approved the promotions of 37 faculty members at its June 7 meeting. All of the promotions are effective with the beginning of the 2012-13 academic year.

Promoted to professor were: Todd J. Barkman, biological sciences; Jonathan Bush, English; Kuanchin Chen, business information systems; Kieran J. Fogarty, occupational therapy; Barbara J. Frazier, family and consumer sciences; Terrell L. Hodge, mathematics; Yvette D. Hyter, speech pathology and audiology; Painir Katerattanakul, business information systems; Steve Kehler, biological sciences; Yrongo Mo, chemistry; Annegret Paul, mathematics; Stephanie M. Peterson, psychology; Eric M. Sauer, counselor education and counseling psychology; Bilinda Straight, anthropology; Jeffrey Strom, mathematics; Judith Swisher, finance and commercial law; and Devrim Yaman, finance and commercial law.

Promoted to associate professor were: Sheila Bair, University Libraries; Manuel A. Bautista, physics; William J. Charland, art; Christian L. Coryn, educational leadership, research and technology; Scott Cowan, music; Edward Eckel, University Libraries; Susan Freeman, gender and women’s studies; Chien-juh Gu, sociology; Melinda Koellinger, mathematics; D. Steven Mackey, mathematics; Thibe E. Nissen, English; Glinda Rawls, Counseling Services; and Mark W. St. Martin, Counseling Services.

Promoted to master faculty specialist were: Jan M. Gabel-Goos, business information systems; Asghar Kayani, physics; Glen P. Langworthy, aviation sciences; David W. Montgomery, music; Susan Nelson, nursing; Mary E. B. Stahl, nursing; and Gay S. Walker, physician assistant and Integrative Holistic Health and Wellness Program.

Tenure granted to 19

The WMU Board of Trustees approved the tenure of 19 faculty members at its June 7 meeting, effective with the beginning of the 2012-13 academic year.

The names of those granted tenure, along with their units or program affiliations, are: Sheila Bair, University Libraries; Manuel A. Bautista, physics; William Charland, art; Christian L. Coryn, educational leadership, research and technology; Scott Cowan, music; Edward Eckel, University Libraries; Mervyn J. Elliott, aviation sciences; Julie A. Evans, music; Susan Freeman, Gender and Women’s Studies Program; Chien-juh Gu, sociology; Asghar Kayani, physics; Melinda Koellinger, mathematics; D. Steven Mackey, mathematics; Susan K. Nelson, nursing; Thibe E. Nissen, English; Glinda J. Rawls, Counseling Services; Mark W. St. Martin, Counseling Services; Mary Stahl, nursing; and Gay S. Walker, physician assistant and Integrative Holistic Health and Wellness Program.

Anthropology sets public open house

The annual Fort St. Joseph Archaeology Open House will be held Aug. 11 and 12 at the fort, which is near Niles, Mich. This free event typically features displays, viewing of excavations and informational talks.

The annual Fort St. Joseph Archaeology Open House will be held Aug. 11 and 12 at the fort, which is near Niles, Mich. This free event typically features displays, viewing of excavations and informational talks.
Retirements of three faculty, eight staff members approved

The WMU Board of Trustees approved several retirements on Thursday, June 7. The retirements include two faculty members and eight staff members. The faculty members retiring are: Cora Jean Dinges, associate professor of human services, effective April 29; and Michael Grammer, assistant professor of geosciences, effective August 19.

The staff members retiring are: Diane D. DeZoete, Bernhard Center Dining Director, effective July 31; Patric Spence,得到有效退任, effective May 17; Jane L. Tomlin, information technology specialist, effective June 30; Kay Rafferty, Center for Community Engagement Director, effective July 31; and Lemmon, management, effective April 29.

Legislators OK state budget, $750,000 for foster youth program

The new Michigan budget approved by the legislature includes $750,000 for WMU’s foster youth program. The money will support the Seita Scholars initiative, which is designed to support former foster youth as they pursue college degrees. The initiative has already seen its first graduates, and is expected to help many more students attend college.

First Light Center grant awarded

Yuan-Kang Wang, sociology, has received the first Timothy Light Center for Chinese Studies Research Grant. Wang received $3,000 for his project titled “The Art of Domination: Managing Regional Hegemony in Qing China and the United States.” It will result in a book and an important gap in international relations literature by providing a comparative, historical perspective on China’s rise and dominance in the international system.

Career mentors are being sought to help guide WMU’s incoming Seita Scholars.

Forty-five new mentors are needed to help the former foster youth build networks of supportive individuals as they pursue college studies, then transition into the workplace. The career mentoring service links Seita Scholars to professionals who engage mentees in activities such as job shadowing, networking, information sharing, and discussion about career paths and plans.

Visit wmich.edu/fyit/Giving/volunteering for additional information or call (269) 387-8362.

Welcome pack items may be dropped off at Harrison Hall from 11 a.m. to 1 p.m. Monday, July 9; 5 to 6 p.m. Tuesday, July 17; 11 a.m. to 1 p.m. Wednesday, July 25; 5 to 6 p.m. Thursday, Aug. 2; and 11 a.m. to 1 p.m. Friday, Aug. 10.

Essential items sought range from toothbrushes and toothpaste, body wash, deodorant, and shaving and feminine hygiene products to towels, hypoallergenic pillows, twin-size bedding, laundry baskets, and clock radios with alarms. Dry goods and food and financial contributions also are accepted.

Visit wmich.edu/news/2012/06/741 for a detailed description of needed items or call fyit-info@wmich.edu for more information.

Mentors, donated supplies sought for WMU’s Seita Scholars

NCAA honors Broncos for academic skill

The University’s men’s basketball and women’s tennis teams are among Division I teams nationwide being honored with Public Recognition Awards from the NCAA for posting Academic Progress Rates in the top 10 percent for their respective sports.

Honorees were announced June 14 by the NCAA. It is the third time in the past four years the men’s basketball team has received a Public Recognition Award from the NCAA, and the second time in the past three years the women’s tennis team has received the award.

Each year, the NCAA tracks the classroom performance of student-athletes on every Division I team through the annual scorecard of academic achievement, known as the Academic Progress Rate—APR. The score measures eligibility and retention each semester or quarter and provides a clear picture of the academic culture in each sport.

The Bronco women’s basketball program was the only such honored this year and among just five to have multiple programs and provides a clear picture of the academic culture in each sport.

On Campus

with Ellen Eberstein

“If you like to walk, come out and look at our planters and gardens, and stroll past our fountains,” urges master gardener Ellen Eberstein. “This campus is a pretty place to walk around.”

Eberstein can’t help but take pride in the role she’s played in WMU’s beautification efforts. She’s been involved in the effort for more than 20 years and now is the lead person taking care of the grounds around the Student Recreation Center, all of East Campus, and the power plant, Seeley Center and police building.

“I love my job; I really do. There’s always something different to do, and I love being outdoors. My boss lets me run with things, like picking plants and doing some designing,” she says. “It’s great seeing the fruits of your labor. I’m proud of myself and my team. When you keep up on things, everything looks nice. You feel good about yourself because you’re doing something for the University.”

Eberstein came to WMU and dining services in 1984 and moved to landscape services seven years later. She learned gardening on the job and now helps train others. Among them is her daughter, Andrea, a WMU student who is one of the student and professional staffs she supervises.

During much of the year, Eberstein’s duties include selecting, planting and watering flowers; mowing; moving; weed whipping; edging; pruning; and applying pesticides as well as removing trash, sweeping and anything else that spruces up her areas. In winter, she shovels snow and salts steps and sidewalks around her assigned buildings. The rest of the time is spent pruning, ordering plants and staying abreast of job-related reading.

Eberstein likes fishing and canoeing and lives on a 23-acre farm in Vicksburg, Mich., with her husband, Todd, a fellow WMU employee. The recently married couple maintains several flower beds and in addition to dogs and cats, keeps goats, chickens, rabbits, ducks and other small animals. Eberstein has three grown daughters, and with Todd, a total of seven grandchildren. “We enjoy spending time with our family, animals and plants,” she says. “That’s pretty much what we love to do.”

Construction disrupting localized traffic flow

Summer construction projects are prompting several lane and road closures near Schneider and Rood halls in the coming months, as well as other West Campus areas.

• Rankin Avenue is down to one lane. Flagmen are present, and travel in both directions is now available. Rankin will reopen mid-July.
• Wilbur Avenue is down to one lane. Flagmen are present, and travel in both directions will be available after today. Wilbur will reopen at the beginning of August.
• After today, the section of Wilbur adjacent to the Fetzer Center and Rood Hall will reopen.
• Road, sidewalk and parking lot traffic will continue to be disrupted around the Sangren Hall and pedestrian mall projects.

Visit the Facilities Management website at fm.wmich.edu now and throughout the summer for information about construction projects.

PSSO elects 2012-13 officers, board

The Professional Support Staff Organization has elected its officers for the 2012-13 academic year.

The organization represents WMU’s benefits-eligible non-exempt (hourly paid) non-bargaining employees who are covered under the Staff Compensation System. Membership also is open to University retirees who are former PSSO members.

New or re-elected officers are: president, Terri Culver, accounting; vice president, Carol Morris-Mier, education and human development; secretary, Pat Wilson, payroll and disbursements; treasurer, Nancy Johnson, associate vice president for finance’s office; and members at large, Kim Feenstra, psychology; Kris Kent, Facilities Management; Rebecca Spanjer, grants and contracts; Jessica Smith, Career and Student Employment Services; and Crystal Stein, Mal- linson Institute.

PSSO members and those eligible for membership may email any board member with WMU-related questions or concerns. Organization dues are $8 for one year or $15 for two years.

Visit wmich.edu/pss to learn more about the Professional Support Staff Organization or obtain a membership form.

Snyder announces new Wilson cohort continued from page 1

and also transform university-based teacher education programs. The Kellogg Foundation launched this initiative in Michigan, providing $18 million in funding.

Participants receive a $30,000 fellowship to complete a cutting-edge master’s degree program, commit to teaching for three years and receive ongoing mentoring. Meanwhile, the participating universities agree to redesign their teacher education programs.

This year’s fellowship competition attracted 102,000 inquiries and ultimately 2,017 applications. The selection process included screening at the Woodrow Wilson Foundation, a full-day interview led by STEM teachers and careful admissions review by the universities.

Michigan’s 2012 cohort consists of 64 students who primarily hail from Michigan communities.
