Solving Problems with LOGIC

Lauren Weiss

Exercise for your brain helps make math more fun in different ways. Join us to learn how to solve logic puzzles and problems at Math Club this week. Solving problems with logic will carry over into many aspects of math and other classes. While we know $A=B$ and $B=C$ therefore $A=C$, this takes it to a whole new level. Come solve logic puzzles and problems with us and have fun too!

4 p.m. Friday February 8
6625 Everett Tower, WMU Main Campus

All are welcome!
