 Researcher at Center for Health Data Research, Analysis and Mapping
 Statistician at Innovative Analytics

About the Data

Graduating students were asked to provide their information through the WMU Post-Graduation Activity Survey within three months of their date of graduation. Some additional data was obtained from students' public professional profiles.

All information for undergraduate degrees is based on the most recent data from 2015–16 graduates, combined with data from 2014–15 graduates which was collected near the time of their graduation. We report two years of data together due to low numbers of responses.

Degree recipients	Post-graduation data was obtained for	
35	25 graduates (71%)	
	Graduates	Responses
Bachelor's	6	5 (83%)
Master's	23	16 (70%)
Doctoral	6	4 (67%)
