Items to be photocopied/scanned

The copyright law of the United States (Title 17, United State Code) governs the making of photocopies or other reproductions of copyrighted materials. Under certain conditions specified by the law, libraries and archives are authorized to furnish a photocopy of other reproduction. One of these specified conditions is that the photocopy or reproduction "is not to be "used for any purpose other than private study, scholarship, or research". If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use", that user may be liable for copyright infringement. This institution reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve violation of the copyright law.
