First, ask if a person wants confidential support from a health care provider, counselor, or clergy member who does not have reporting obligations. The intent is not to discourage disclosure to you, but to give information so the person can decide what to disclose, to whom and when.

If the person wishes to speak openly with you, convey that you have an obligation to share information about sexual misconduct with Institutional Equity and will safeguard his or her privacy and only share information with individuals who are directly involved in the resolution of the matter.

Listen. Believe what is being told to you. There is no need to ask investigative questions, provide counseling or make judgements about what happened. This person sought you out as a trusted source to listen. Everyone responds differently to trauma. People may not be acting the way you would.

Report

Share all known details of the incident (date, time, location), the names of the parties involved, and a brief description of the incident with Institutional Equity (1220 Trimpe), by telephone at (269) 387-6316, or through an online report form at wmich.edu/sexualmisconduct.

To protect privacy, confidentiality and due process, Institutional Equity will update involved parties about the investigation. Individuals reporting an incident to Institutional Equity will only receive confirmation that the office received their report.

If criminal behavior is involved, ask if the person would like you to call the police. If so, contact WMU Public Safety at (269) 387-5555.

The WMU Sexual Misconduct Policy has certain provisions for amnesty regarding alcohol and drug use. Parents of WMU Students are not notified of sexual misconduct reports brought to Institutional Equity.

What happens after the report?

Institutional Equity will contact the person through email and ask to meet. If the person doesn’t want to meet, the case will be evaluated to determine if action is needed by the University, and if not, it will be closed.

If the person decides to meet, they may bring a support person. Institutional Equity investigators will review safety measures and available resources and discuss which resolution is best for the situation, such as an informal resolution or an investigation.

During an investigation, Institutional Equity will conduct individual meetings with each person associated with the incident. The University does not use a hearing panel for sexual misconduct cases. If Institutional Equity finds a student responsible for violating the policy, sanctions may be administered through Student Conduct. If a faculty or staff member is found responsible for violating the policy, disciplinary action may be administered through Human Resources or the Office of the Provost. If a crime is involved, Institutional Equity will recommend filing a police report and will discuss options for pursuing a separate criminal case.
