

Ten Years after DACA: How the Program has Impacted the Employment Outcomes of Young Undocumented Migrants

Camila Morales, Ph.D.

Thursday, January 12, 2023
3508 Knauss Hall; 2-3:15.

Dr. Camila Morales studies the impact of immigration policies on the labor market outcomes of young adults, as well as the efficacy of school-level programs and peer interactions on the academic achievement of immigrants/refugees and English learners. Dr. Morales, a professor at University of Texas at Dallas, received her PhD in Economics from Georgia State University. She was recently awarded an early-career fellowship with Northwestern University's Center for Education Efficacy, Excellence, and Equity (E4).

A reception with snacks will follow the lecture in the Humanities Center on the lower level of Knauss Hall.

Provost Julian Vasquez Heilig will introduce Professor Morales.

This programming is co-sponsored by the Department of Economics and the Martin Luther King, Jr.; César Chávez; Rosa Parks (KCP) Visiting Professors Program through the Office of Diversity and Inclusion. Please contact Susan Pozo at susan.pozo@wmich with any questions.
