HEALTH AND HUMAN SERVICES FUNDING

DENISE WHEATLEY
OFFICE OF RESEARCH AND INNOVATION
SEPTEMBER 17, 2019
WHAT WOULD YOU DO NEXT YEAR IF YOU HAD THE FUNDING SUPPORT YOU NEEDED?
• K Awards

• Become familiar with US Department of Health and Human Services Agencies

• What types of grants they fund

• Who at WMU has received grants
NIH RESEARCH TRAINING AND CAREER DEVELOPMENT – K AWARD

• To provide individual and institutional research training opportunities to trainees at the undergraduate, graduate, and postdoctoral levels.

• [https://researchtraining.nih.gov/programs/career-development](https://researchtraining.nih.gov/programs/career-development)
WHAT IS A K AWARD?
‘CAREER’ AWARDS = ‘K’ AWARDS

It is a grant mechanism used to protect time for individuals to further develop their research expertise in their career.

There are 15 different grant mechanisms at this time

- [https://grants.nih.gov/grants/funding/ac_search_results.htm](https://grants.nih.gov/grants/funding/ac_search_results.htm)

**Three varieties of K awards**

- Mentored
- Non-mentored
- Institutional
In general, NIH career development awards fall into two major categories:

1. Candidate works with an established investigator (mentored)
2. Candidate has reached independence as a researcher, but seeks to obtain new skills, mentor students or new investigators, or develop new curricula (independent).

*Individual mentored awards represent more than 60 percent of the NIH career development budget*
• Mentored Research Scientist Development Award (K01) – Provides mentored research and career development experiences for new biomedical scientists, primarily research doctorates, or those entering new fields.

• Mentored Clinical Scientist Development Award (K08) – Provides mentored research and career development experiences for health professional doctorates in fields of biomedical and behavioral research.

• Mentored Patient-Oriented Research Career Development Award (K23) – Provides mentored research and career development experiences for health professional doctorates in patient-oriented research.
MENTORED K AWARDS
K01, K07, K08, K18, K22, K23, K25, K43, K99/R00

• Typically the PI/PDs first grant award

• Provide support for a sustained period of “protected time” – 3 to 5 years

• **Mentor**: recognized as accomplished investigator in proposed research area with a successful track record

• **Purpose**: to support transition from a mentored staff member to an independent career
MENTORED K AWARDS (CONTINUED)

General Requirements:

– Minimum 75% effort

– Requires a mentor’s statement and Environment & Institutional Commitment (should be included in the application)

– Lower salary cap and other cost restrictions (see FOA)
General Requirements:

– Per Notice NOT-OD-17-094, K awardees may now supplement their salaries from Federal sources, provided the supplementation is for effort not committed to the K.

– K awardees may drop effort on their K to not lower than 6 CM in the final two years if they have successfully competed for a Federal award as a principal investigator.

– All other expenses are included under “other research costs” which are also capped (see FOA)
PRE-AWARD: ELIGIBILITY — WHO CAN APPLY?

- Doctoral Degree (generally) – some (K08, K23, K24) require clinical degree
- US Citizen, Non-Citizen National, Permanent Resident (except K99/R00); Citizenship requirement met at time of award, not application
  - For K99/R00:
    - If applicant achieves independence prior to initiating the K99, neither K99 or R00 phases will be awarded
- Previous NIH PD/PI may be Ineligible
- [https://researchtraining.nih.gov/resources/faq](https://researchtraining.nih.gov/resources/faq)
Application success rates in the last ten years have stayed consistent – 29-32% of applications funded for all K awards total.

In 2018, 172 K awards were given and 3208 applications submitted.
WHY SHOULD YOU APPLY

• K awardees were significantly more likely to have subsequent research publications than comparable unfunded applicants.

• K awardees were more likely than comparable unfunded applicants to apply for subsequent NIH research awards.
FACT

• Collectively, researchers who had held a prior K01, K08, or K23 award had a significantly higher R01 award success rate than the pool of individuals with no prior career development support.

• Among those who could be followed for at least a decade, K awardees had a higher percentage of years with subsequent NIH support and were more likely to apply for and receive at least one competitive renewal of an R01 grant than comparable unfunded applicants.
Mission

• To enhance the health and well-being of Americans by providing for effective health and human services and by fostering sound, sustained advances in the sciences underlying medicine, public health, and social service.

Operating Divisions

- Administration for Children and Families (ACF)
- Administration for Community Living (ACL)
- Agency for Healthcare Research and Quality (AHRQ)
- Agency for Toxic Substances and Disease Registry (ATSDR)
- Centers for Disease Control and Prevention (CDC)
- Centers for Medicare & Medicaid Services (CMS)
- Food and Drug Administration (FDA)
- Health Resources and Services Administration (HRSA)
- Indian Health Service (IHS)
- National Institutes of Health (NIH)
- Substance Abuse and Mental Health Services Administration (SAMHSA)
Administration for Children & Families (ACF)

Mission
• Promotes the economic and social well-being of children, families, individuals and communities with leadership and resources for compassionate, effective delivery of human services.

Executive Summary

Notice:

• Applicants are strongly encouraged to read the entire funding opportunity announcement (FOA) carefully and observe the application formatting requirements listed in Section IV.2. Content and Form of Application Submission. For more information on applying for grants, please visit "How to Apply for a Grant" on the ACF Grants & Funding Page at https://www.acf.hhs.gov/grants/howto.

The Office of Planning, Research, and Evaluation (OPRE), within the Department of Health and Human Services (HHS) Administration for Children and Families (ACF), intends to award up to ten cooperative agreements under the Secondary Analyses of Strengthening Families Datasets to support rigorous, policy-relevant research secondary data analysis of the Building Strong Families (BSF), Supporting Healthy Marriage (SHM), and Parents and Children Together (PACT) datasets.

Length of Project Periods:

Length of Project Period: 24-month project period with two 12-month budget periods

Additional Information on Awards:

Awards made under this announcement are subject to the availability of federal funds.

Applications requesting an award amount that exceeds the Award Ceiling per budget period, or per project period, as stated in this section, will be disqualified from competitive review and from funding under this announcement. This disqualification applies only to the Award Ceiling listed for the first 12-month budget period for projects with multiple budget periods. If the project and budget period are the same, the disqualification applies to the Award Ceiling listed for the project period. Please see Section III.3. Other, Application Disqualification Factors.

Note: For those programs that require matching or cost sharing, recipients will be held accountable for projected commitments of non-federal resources in their application budgets and budget justifications by budget period or by project period for fully funded awards, even if the projected commitment exceeds the required amount of match or cost share. A recipient's
What Are Bayesian Methods? - OPRE in 60 Seconds

Bayesian methods allow researchers to describe findings in probabilistic terms. They also allow for incorporating prior knowledge and considering uncertainty in parameters.

Mission
CDC works 24/7 to protect America from…
• Health, safety and security threats both foreign and in the U.S.
• Chronic or acute diseases that start at home or abroad
• Human error or deliberate attack
• Give Grants and Cooperative Agreements
• Fund research and non-research public health programs that advance the agency’s public health mission domestically and abroad to keep Americans safe and healthy where they work, live and play
• In fiscal year 2018 CDC,
  – supported 4,548 grant awards to 1,305 recipients
  – more than $5.4 billion into public health programs and research around the world
  – 136 new Notice of Funding Opportunities (NOFOs)

CDC’s Strategy is Based on Action Plans and Detailed Measures of Success

Examples Include:

- **Opioids** – Reduce US drug overdose mortality by at least 15% by 2021
- **Opioid Data** – Reduce data delay from 3 months to 1 week for nonfatal opioid overdoses
- **Influenza** – By 2021, increase flu vaccination coverage rates among children to 65% and among pregnant women to 55%
- **HIV/AIDS** – Eliminate new HIV infections in 10 years
- **Vaccine-preventable** – Increase by 10% up-to-date HPV vaccination coverage rate in 2021 compared to 2017 (48.6%)
- **Rapid Response** – By 2022, triple the number of CDC rapid response teams and trained incident managers
- **Vector-borne** – Reduce by 75% cases of Rocky Mountain spotted fever in US tribal communities
- **Hepatitis C** – Reduce hepatitis C-related deaths by 65% in 10 targeted states by 2024, as a first step to a national program
- **Antibiotics** – Reduce by 50% inappropriate antibiotic use in outpatient settings by 2020
- **Global** – Zero countries with wild poliovirus
- **Diabetes** – Reduce the number of new diabetes diagnoses from 1.4M in 2018 to 1.1M cases per year by 2025
- **AMD** – Increase the routine use of Advanced Molecular Detection from 37 states (2017) to all states (2019)
WMU FACULTY WHO HAVE RECEIVED CDC GRANTS

• Dr. Steve Tasko  $141,613
  – Assess the Response of Middle Ear Muscle Contraction to Stimuli in Attended and Distracted Unattended Conditions
• Provides health care to people who are geographically isolated, and/or economically or medically vulnerable. This includes people living with HIV/AIDS, pregnant women, mothers and their families, and those otherwise unable to access high quality health care.
• HRSA supports the training of health professionals, the distribution of providers to areas where they are needed most, and improvements in health care delivery.
• Award nearly 90% of budget through grants and cooperative agreements to approximately 3,000 awardees

• Community-based organizations, colleges and universities, hospitals, private entities, and state, local, and tribal governments
• 5 bureaus, 11 offices
  – Bureau of Health Workforce
  – Bureau of Primary Health Care
  – Maternal and Child Health Bureau

Early Hearing Detection and Intervention Program

HRSA-20-047 | Maternal & Child Health Bureau
Application Accepted: 07/10/2019 to 11/08/2019
Projected Award Date: 04/01/2020
Estimated Award Amount: N/A
Estimated Number of Awards: N/A

Program Description:
This notice announces the opportunity to apply for funding under the Early Hearing Detection and Intervention (EHDI) Program. The purpose of this program is to support comprehensive and coordinated state and territory EHDI systems of care[1] so families with newborns, infants, and young children up to 3 years of age[2] who are deaf or hard-of-hearing (DHH)[3] receive appropriate and timely services that include hearing screening[4], diagnosis, and early intervention (EI).
How do you prepare your application?

Use our application guides, which we created to help you prepare and submit your application.

- SF-424 Application Guide (PDF - 667 KB)
- SF-424 Two-Tier Application Guide (PDF - 712 KB)
- SF-424 Research & Related (R&R) Application Guide (PDF - 843 KB)
- SF-424 Research & Related (R&R) Two-Tier Application Guide (PDF - 837 KB)

Access more information about our SF-424 guides.

While these guides give you general HRSA information as it relates to the application process, they do not include specific guidance for the opportunity to which you are applying. You must refer to the specific Notice of Funding Opportunity (NOFO) for specific instructions.

Additionally, you should always review HHS’s Grants Policy Statement (PDF - 1.1 MB), which serves as your comprehensive source of grant information.

For which programs do we offer awards?

We make awards from over 90 grant programs in the following categories:

- Health Center Programs for community-based health care organizations that provide primary care in underserved areas
- Ryan White HIV/AIDS Programs for eligible states and metropolitan areas, as well as providers of HIV/AIDS healthcare services
- Maternal And Child Health Programs for states and providers of maternal and child health services, including services for children and youth with special healthcare needs and MCH training and research
- Health Workforce Programs for colleges, universities and other accredited health professions training programs
- Rural Health Programs for critical access hospitals and other health care providers in rural areas
- Organ Donation Programs for Organ Procurement Organizations and other organizations involved in organ donation, procurement and transplantation
- Poison Control Centers
Health centers saved Medicaid nearly $2,400 per patient in total annual health care spending. The Health Center Program saved over $10.1 billion* in 2017 for Medicaid fee-for-service patients.

Medicaid patients who received most of their primary care in HRSA-funded health centers had lower total health care use and spending than patients receiving care in other settings.

Cost of care for health center patients was lower than non-health center patients on similar healthcare services**: ▼ 24%

  – Case Studies
DOJ – DEPARTMENT OF JUSTICE

Fund opportunities that support:

• Law enforcement and public safety activities
  – in state, local, and tribal jurisdictions
• Assist victims of crime
• Provide training and technical assistance
• Conduct research
• Implement programs that improve the criminal, civil, and juvenile justice systems
DOJ HAS 3 GRANT-MAKING COMPONENTS

1. Office of Community Oriented Policing Services (COPS)
2. Office of Justice Programs (OJP) comprised of six bureaus and program offices
3. Office on Violence Against Women (OVW)

The Congressional appropriation that supports DOJ's programs and operations reflects the priorities of the President, the Attorney General, and Congress.

OFFICE OF JUSTICE PROGRAMS (OJP)

- Bureau of Justice Assistance (BJA)
- Bureau of Justice Statistics (BJS)
- National Institute of Justice (NIJ)
- Office of Juvenile Justice and Delinquency Prevention (OJJDP)
- Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking (SMART)
- Office for Victims of Crime (OVC)
OFFICE OF JUSTICE PROGRAMS (OJP)
PRIORITIES

- Reducing Violent Crime
- Combating Opioid Crisis
- National Security
- Human Trafficking
- Tribal Justice and Safety
