

Evolving a More Nurturing Society Through Behavioral Science

CEU's Available

January 21st 8:00am – 2:00pm

Wood Hall 1710

Pizza Lunch Provided!

Cost: FREE!

Presented by Dr. Anthony Biglan

Anthony Biglan, Ph.D. is a Senior Scientist at Oregon Research Institute. He has been conducting research on the development and prevention of child and adolescent problem behavior for the past 30 years. His work has included studies of the risk and protective factors associated with tobacco, alcohol, and other drug use; high-risk sexual behavior; and antisocial behavior. He has conducted numerous experimental evaluations of interventions to prevent tobacco use both through school-based programs and community-wide interventions. And, he has evaluated interventions to prevent high-risk sexual behavior, antisocial behavior, and reading failure.

Seats are limited. Please email denice.rios@wmich.edu to get registered for the workshop by January 19th!
