

How to export publications from EndNote.

- A. Log into your [EndNote](#) account and click **Format** menu. Underneath the menu bar, click **Export References**.

- B. Navigate to the “**References**” dropdown box, select the folder in which your publications are stored. In this example, this folder is “**My Publications**”.

- C. Then proceed to the “Export Style” dropdown box and select “**BibTeX Export**” or “**RefMan (RIS) Export**”. Then, click save, and it will prompt you to save in a location. Please note that WMU FARS can only import a BibTeX or RIS file.
