

August 17, 2020

Greetings!

Congratulations! Your work as a [insert major] student has distinguished you as a possible candidate for the [insert department name] Accelerated Graduate Degree Program (AGDP)! This special program allows WMU undergraduate students to enroll in up to 12 graduate credits hours, which are double-counted to apply toward your bachelor and master's degree simultaneously! More information is available online at: [insert department AGDP site].

I would like to speak with you about this opportunity, so please let me know what the best way to connect is. This is something that we will work together on to integrate into your existing program (no extra time required or tuition charged), so let's start planning right away!

Sincerely,

[insert signature]

P.S. Jobs requiring a master's degree or higher will increase by at least 18 percent into 2022, and WMU's accelerated programs are a great way to position yourself for career choices!
