

Date of request: 09-OCT-2018

Request ID: E-2018-FCS-101

College: E

Department: FCS

Initiator name: Caroline Webber

Initiator email: caroline.webber@wmich.edu

Proposed effective term: 201940

Does course need General Education approval?: N

Will course be used in teacher education?: N

If 5000 level course, prerequisites apply to: U

Proposed course data:

Change Course FCS 3460

Specific Course Change type selected: Enrollment restriction

1. Existing course prefix and number:

FCS 3460

2. Major and/or minor restrictions:

Include

3. List all the four-digit major and/or minor codes (from Banner) that are to be included or excluded:

No Major Restrictions exist for FCS 3460 in term 201940.

Add:

old Dietetics code (DIDJ)

new major Nutrition and Dietetics code (NDDJ)

4. If this change applies to multiple courses, please list them below.

FCS 3460

FCS 3600
FCS 4600
FCS 4620
FCS 4630
FCS 4680

A. Please choose Yes or No to indicate if this class is a Teacher Education class:

No

B. Please choose the applicable class level:

Undergraduate

C. Please respond Yes if this is a current general education course and/or a course being submitted for the new WMU Essential Studies program. Please respond No if it is neither.

No

D. Explain briefly and clearly the proposed improvement.

We are requesting to change the major enrollment code for these courses because the program name for Dietetics has been changed.

E. Rationale. Give your reason(s) for the proposed improvement. (If your proposal includes prerequisites, justify those, too.).

Changing the name of the major requires a new major code, so a new code must be added to Banner. Course codes for prerequisites and co-requisites for courses in the major must also be adjusted.

F. List the student learning outcomes for the proposed course or the revised or proposed major, minor, or concentration. These are the outcomes that the department will use for future assessments of the course or program.

Not applicable - The learning outcomes for these courses have not changed.

G. Describe how this curriculum change is a response to student learning assessment outcomes that are part of a departmental or college assessment plan or informal assessment activities.

Not applicable - the learning outcomes for these courses have not changed and therefore the change doesn't affect departmental or college assessment plans.

H. Effect on other colleges, departments or programs. If consultation with others is required, attach evidence of consultation and support. If objections have been raised, document the resolution. Demonstrate that the program you propose is not a duplication of an existing one.

Not applicable. This should have no effect on other colleges, departments, or programs.

I. Effect on your department's programs. Show how the proposed change fits with other departmental offerings.

Not applicable. Changing the new major enrollment codes will not impact the department's programs.

J. Effects on enrolled students: are program conflicts avoided? Will your proposal make it easier or harder for students to meet graduation requirements? Can students complete the program in a reasonable time? Show that you have considered scheduling needs and demands on students' time. If a required course will be offered during summer only, provide a rationale.

Not applicable. New enrollment codes should have no impact on the program.

K. Student or external market demand. What is your anticipated student audience? What evidence of student or market demand or need exists? What is the estimated enrollment? What other factors make your proposal beneficial to students?

Not applicable. No change is expected for these courses because the enrollment codes are changing.

L. Effects on resources. Explain how your proposal would affect department and University resources, including faculty, equipment, space, technology, and library holdings. Tell how you will staff additions to the program. If more advising will be needed, how will you provide for it? How often will course(s) be offered? What will be the initial one-time costs and the ongoing base-funding costs for the proposed program? (Attach additional pages, as necessary.)

Not applicable. No change in resources expected.

M. With the change from General Education to WMU Essential Studies, this question is no longer used.

For courses requesting approval as a WMU Essential Studies course, a syllabus identifying the student learning outcomes and an action plan for assessing the student learning outcomes must be attached in the Banner Workflow system.

Not Applicable

N. (Undergraduate proposals only) Describe, in detail, how this curriculum change affects transfer articulation for Michigan community colleges. For course changes, include detail on necessary changes to transfer articulation from Michigan community college courses. For new majors or minors, describe transfer guidelines to be developed with Michigan community colleges. For revisions to majors or minors, describe necessary revisions to Michigan community college guidelines. Department chairs should seek assistance from college advising directors or from the admissions office in completing this section.

Not applicable.

O. Current catalog copy:
FCS 3460 - Nutrition Education and Counseling

Analysis of the teaching-learning and individual counseling processes for dietetic professionals. Included are interpersonal communications, education skills, interviewing techniques, individual counseling techniques and skills, teaching methods for the delivery of one-on-one instruction as well as to small and large groups and to diverse populations.

Prerequisites & Corequisites: Prerequisites: FCS 2600 and FCS 3150 with a grade of "C" or better in all prerequisites.

Credits: 3 hours

When Offered: Spring

FCS 3600 - Lifespan Nutrition

This course emphasizes application of nutrition principles to the stages of the life cycle in a cultural context. Skills in assessing and meeting nutrition needs of individuals and families are developed.

Prerequisites & Corequisites: Prerequisite: FCS 2600

Credits: 3 hours

When Offered: Spring

FCS 4600 - Medical Nutrition Therapy I

A focus on the development of individual nutrition care plans using the techniques of the Nutrition Care Process: assessment, nutrition diagnosis, intervention, and evaluation and monitoring. Medical Nutrition Therapy (MNT) will be discussed for selected disorders. Drug-nutrient interactions and associated medical terminology are also discussed. Case studies allowing integration of MNT principles are a prominent feature of the course.

Prerequisites & Corequisites: Prerequisites: Senior standing in dietetics; FCS 3600, FCS 3650, BIOS 2400 and CHEM 3550 with a grade of "C" or better in all prerequisites. Corequisite: FCS 4630.

Credits: 4 hours

Restrictions: Restricted to majors in Dietetics.

When Offered: Fall

FCS 4620 - Community Nutrition

This course will utilize online technology to engage students in a study of the structure of community nutrition programs including the roles of government, health care, economics, and public policy.

Prerequisites & Corequisites: Prerequisites: FCS 2600 and FCS 3600.

Credits: 3 hours

When Offered: Spring

FCS 4630 - Medical Nutrition Therapy Laboratory I

Skill development in nutritional assessment via performing anthropometric measurements, biochemical analysis, physical exam, and diet history. Nutrition counseling and interviewing, as well as documentation and charting are also discussed. Students are also introduced to parenteral and enteral products, practice calculating individual formulations, and become familiar with feeding tubes, pumps, and catheter care.

Prerequisites & Corequisites: Corequisite: FCS 4600.

Credits: 1 hour

When Offered: Fall

FCS 4680 - Advanced and Experimental Foods

Understanding the physical and chemical properties of foods by use of objective and subjective testing methods. This course is approved as a writing intensive course which may fulfill the baccalaureate-level writing requirement of the student's curriculum.

Prerequisites & Corequisites: Prerequisites: Senior standing in dietetics; FCS 1650, FCS 2600, FCS 3650 and CHEM 3700/3710 with a grade of "C" or better in all prerequisites.

Credits: 4 hours

When Offered: Fall
