PRESENTERS: DR. SELENA PROTACIO, SUSAN PIAZZA, VIRGINIA DAVID, MAGDA TIGCHELAAR, AND CODY WILLIAMS

With the rising number of English learners (ELs) in Michigan, preparing more English as a second language (ESL) teachers is a priority in order to address this critical shortage area. The primary purpose of Project ELATE is to address the need for more Michigan educators to be prepared to address the needs of ELs in their classrooms. In this presentation, the Project ELATE grant team will present an overview of their five-year ESL National Professional Development grant. They will also present initial findings from the first two years of grant implementation.
