INTRODUCTION

STATE BOARD APPROVAL AND ACCREDITATIONS

The Michigan Board of Nursing is the regulatory body that grants provisional and full approval of nursing education programs in the State of Michigan. Full approval of the Western Michigan University (WMU) Bronson School of Nursing (BSON) was granted in July, 2002 following provisional status prior to that time.

The WMU BSON undergraduate program is accredited through 2027 by the Commission on Collegiate Nursing Education (CCNE), 655 K Street NW, Suite 750, Washington DC 20001. The CCNE is an autonomous accrediting agency. As a “specialized professional accrediting agency, CCNE ensures the quality and integrity of baccalaureate and graduate nursing programs” (CCNE document).

The WMU BSON undergraduate program has received endorsement from the American Holistic Nursing Certification Corporation which is the credentialing body for holistic nursing. This endorsement enables graduates of the program to be exempt from prerequisites should they choose to sit for the National Certification Examination in Holistic Nursing.

WESTERN MICHIGAN UNIVERSITY

It is the policy and commitment of Western Michigan University not to discriminate on the basis of race, gender, age, color, national origin, height, weight, marital status, sexual orientation, religion, handicap or Veteran status in its educational programs, activities, admissions, or employment practices in accordance with Title VII of the Civil Rights Act of 1964, Title IX of the 1972 Education Amendments, Executive Order 11246 as amended, Section 504 of the Rehabilitation Act of 1973, and all other pertinent State and Federal regulations.

In order to maintain the quality and integrity of the nursing program, the WMU BSON reserves the right to update and/or revise school policies.

July 3-4 ........................................................ Independence Day recess
August 14, Friday ............................................... Session Ends
August 18, Tuesday ........................................... Summer II Grades Due at Noon
The BSON at WMU opened in 1994 -- the result of several years of planning and collaboration by University and community leaders. The school was founded based on the need for baccalaureate prepared nursing professionals as articulated by local and national nursing leaders.

The WMU BSON, located within the College of Health and Human Services, offers a Bachelor of Science in Nursing (BSN) degree. The pre-licensure track provides the nursing degree for individuals who are entering the nursing profession, while the RN-BSN track offers an avenue to the BSN degree for the licensed nurse who graduated from a diploma or associate degree program in nursing.

The WMU BSON curricula are designed to prepare nurse generalists who comprehend the discipline and the profession of nursing and who are competent to provide, coordinate, and evaluate patient care in the multiple social contexts in which health care is delivered. The graduate of the program will deliver nursing care to individuals, groups, and communities.

The WMU BSON seeks to prepare thoughtful, professional nurses who possess the skills, knowledge, and values necessary to deliver quality health care in this century. The faculty believe that the long-standing social contract between nursing and society conveys an understanding that community needs direct nursing services, that nurses develop partnerships with clients and other health care providers to promote holistic health care, and that caring is intrinsic to nursing. The curriculum integrates knowledge from liberal arts, sciences, and the discipline of nursing. The program emphasizes the development of skills, knowledge, and competencies essential for the scope of clinical judgment that distinguishes the practice of a professional nurse. Concepts of patterning, holism, caring, service to vulnerable groups, and partnership are emphasized.

**The Mission**

In harmony with WMU and the College of Health and Human Services’ mission statements, the WMU BSON is dedicated to meeting the holistic care needs of diverse individuals, groups, and communities at local, state, national, and global levels, through teaching, scholarly inquiry, and service with the community. It is also committed to educating professional nurses who provide competent, relationship-based care, actively participate in the development and application of research, and assume leadership roles in evolving health care contexts.

**The Vision**

To be the pre-eminent Michigan school of nursing that provides leadership in health care and is a first choice for a diverse pool of state, national and international students.
The Philosophy

Beliefs about Teaching and Learning
We believe that nursing students are adult learners, responsible for assessing their own learning needs, for seeking and using educational opportunities, and for preparing themselves to engage in a lifelong pursuit of learning and self-development.

We believe that faculty are responsible for facilitating learning through creation of an environment that fosters thoughtful exchange of ideas, critical thinking, guided experience with new concepts and skills, and opportunities for self-development.

We believe that the development of the professional nurse requires general education in the sciences, arts and humanities as well as content specific to the discipline of nursing.

Beliefs about the Practice of Nursing
We believe that the practice of nursing includes a broad range of activities, including direct patient care, research, administration, interdisciplinary collaboration, education, and setting the health policy agenda.

We believe that nursing practice is evidence based (standards of practice) in order to provide the highest quality of care possible.

We believe nursing care is holistic, respecting the spiritual, cultural, physiological, and psychosocial dimensions of each client.

We believe that nursing services should add value to the lives of clients without unnecessary cost.

We believe nursing care is relationship-based and values diversity.

Beliefs about the Profession of Nursing
We believe that nursing is grounded in the ethical codes of the profession.

We value the autonomy of nursing as a discipline, including setting standards of practice, codes of moral behavior, and guidelines for educational programs.

We believe that nursing has a social contract with the community that is responsive to the needs of the community and based on partnerships that work together to make the community healthier.

Beliefs about Undergraduate Education in Nursing
Faculty in the WMU BSON believe that preparation for professional nursing begins at the baccalaureate level. We further believe that undergraduate nursing education should provide a foundation for practice that is congruent with the most current AACN Essentials of Baccalaureate Education for Professional Nursing Practice. We believe that the development of the professional nurse at the undergraduate level requires general education in the sciences, arts, and humanities, as well as content specific to the discipline of nursing.
Program and Faculty Goals

The WMU BSON accepts its responsibility to make higher education in nursing accessible to a diverse student body of both prospective and practicing nurses.

The faculty of the WMU BSON accepts its responsibility to expand and disseminate nursing's body of knowledge through ongoing research, clinical practice, and educational programs.

The faculty of the WMU BSON accepts its responsibilities to contribute to the development of nursing nationally and internationally.

Curriculum Goals and Content

Nursing services embrace and address the holistic needs of individuals, groups, and communities for health, wellness, cure, and care.

Curricula are designed to promote the professional and personal development of learners in order to gain competence in increasingly complex concepts, skills, and abilities.

BSN Program Outcomes

At the end of the WMU BSON program, the learner will be able to:

1. Provide holistic, caring, and culturally sensitive nursing care for communities, groups, and individuals;

2. Develop community health partnerships with clients and other health providers in order to shape health policy, promote health, and prevent disease;

3. Analyze and apply nursing research and scholarly inquiry to inform professional practice;

4. Accept responsibility and accountability for behavior consistent with the profession's code of ethics and standards of professional practice;

5. Employ critical thinking to guide professional practice; and

6. Utilize effective human and technological communication in professional practice in order to enhance the health and well being of diverse individuals, families, and communities.
The RN-BSN program admits a cohort of students that begins in the fall semester. The part-time plan of study is designed to be completed in 24 months. Should a student step out of sequence (i.e. not attend every semester according to the schedule or drop courses), the time to completion of the degree will be delayed. RN-BSN courses are sequenced; and not every course is offered each semester.

Students must complete the RN-BSN program within no more than 5 years after admission. Students requesting exception to this policy must follow the “Change in Program of Study” listed in this handbook.

At the beginning of the first nursing course (NUR 3400), the student will be asked to present the following:
- A current Registered Nurse license. Students who do not hold a Registered Nurse license must present verification of the license within 3 months of beginning the program.
- Satisfactorily complete a criminal background check

Prior to the start of NUR 4330 and NUR 4340, the student will be asked to present the following:
- 10-panel drug test (see pages 23-24)
- Current American Heart Association Health Care Professional Basic Life Support Card
- Immunization records (see page 21 for full list)

**Computer Requirements:**

WMU on-line courses require access to broadband Internet access.

<table>
<thead>
<tr>
<th>COMPONENT</th>
<th>REQUIREMENTS</th>
</tr>
</thead>
</table>
| Operating Systems | • Windows (current release)  
|                  | • Mac OS (current release)  |
| Laptop Hardware | • Processor: Intel Core i3-3xxx or equivalent (Intel Core i5-6xxx or equivalent recommended)  
|                  | • RAM: 4GB (8GB or more recommended)  
|                  | • HD: 250GB (Solid State optional)  
|                  | • Monitor/Screen: 1280x800 or higher resolution  
|                  | • Built-in WIFI (802.11 ac/g/n)  
|                  | • Webcam  |
| Software        | • Microsoft Office Suite 2016 (or compatible Office Suite)  
|                  | • Adobe Acrobat Reader  
|                  | • Chrome Web Browser  
|                  | • Antivirus Software (current release)  |

Note: Students should be able to perform basic computing tasks, such as performing internet searches, uploading and downloading documents and using email. Students should also have a basic level of proficiency using Microsoft Word, PowerPoint, and Excel.
**Academic Credit from Associate Degree or Diploma Programs**

Graduates of community college associate degree and diploma programs will be awarded transfer credit on a course-by-course basis in accordance with University policies. An additional block of 30 credits will be awarded for successful NCLEX completion.

**Progression and Advancement**

1. It is the student’s responsibility to meet with a designated nursing advisor before the program begins and, prior to beginning the second fall semester, to complete the graduation audit. If the student deviates from their sequence of study, the student is strongly encouraged to meet with the academic advisor.

2. Students must complete designated requirements for each course in the nursing program before progressing to the next nursing course. Any exceptions must follow the change of program procedure and be pre-approved by the Student Affairs Committee and the Director. Student records will be validated for fulfillment of required courses.

3. To progress through the RN-BSN curriculum, the student must achieve a grade of “C” or better in **ALL** nursing courses, support courses, and program requirements. This includes nursing core courses taken at WMU before entering the RN-BSN program. It also includes any BSN completion courses taken at other colleges or universities.

4. Students must pass the didactic, practice and written portions of **ALL** nursing courses to receive a passing grade. All methods of evaluation including practice, examinations and written work must all be passed at an average of 75% or higher to pass the course. Students receiving less than a 75% average on examinations, less than a 75% average on writing assignments or unsatisfactory practice evaluations will receive a DC in the course as a final grade.

5. If a student receives a “W” or fails to receive a grade of “C” or better in a nursing course, support course or program requirement the student may request reenrollment in the failed course. No more than one repeat of a nursing course is allowed during the program of study. See “Change in Program of Study” for procedure to request reenrollment in a course.

6. Students who repeat a course will be required to follow an academic performance contract. This contract will be developed by the student and the faculty with whom the student retakes the course. Input of the faculty under whom the student did not pass the course may also be considered.

7. Students who fail to pass a nursing course at the end of a second enrollment will be dismissed from the program.

8. Students whose cumulative grade point average falls below 2.0 will not be allowed to progress in the nursing program until the grade point average is raised to 2.0 or above.

9. The WMU Bronson School of Nursing reserves the right to move students to another section of a nursing course to ensure that all students enrolled can be accommodated.
Grades

The following grading schema will be used in the WMU BSON:

<table>
<thead>
<tr>
<th>Percentage</th>

</tr>
<tr>
<td>below 64</td>
<td>E</td>
<td>0</td>
</tr>
</tbody>
</table>

Change in Program of Study

The following students must submit a Change of Program Request.

1. A student who:
   a) wishes to request an alteration in the prescribed timeline for nursing courses. The sequence of courses and prerequisite courses may not be altered except in extenuating circumstances (see RN-BSN Professional Nursing Program: Progression and Advancement).
   b) receives a grade less than a “C” in a nursing, support course or program requirement.
   c) fails to complete a co-requisite course.
   d) withdraws from a nursing course in good standing.
   e) tests positive on a preclinical drug screening.

Students requesting a change of program must:
   a) write a formal letter to the WMU BSON RN-BSN Program Coordinator requesting a program alteration. At minimum, this letter will include a request for permission to alter the program of study, provide reasons for the request and a brief statement outlining the student’s plan for future success. For example, if a student withdrew from a course because of a family hardship, a brief explanation should be provided. If a student fails a course, the student will provide a brief statement of responsibility for the failure and a brief plan to guide success.
   b) receive written approval from the Bronson School of Nursing Director or designee.
   c) complete this procedure prior to progressing.

2. If a student has been inactive in the nursing program in excess of one year, the RN to BSN Program Coordinator, in consultation with relevant faculty, will evaluate the student’s readiness to return and proceed. The student may be required to perform remediation as recommended by faculty.

3. Approval of a request for continuation in the RN-BSN program will be contingent upon clinical and didactic availability. This will be a competitive process based upon cumulative grade point.
average, grades in nursing courses, documented deficits in performance patterns in nursing classes and the students’ written plan for success.

**Graduation**

An application for graduation must be filed according to the guidelines and deadlines as stated on the WMU Registrar’s website (https://wmich.edu/registrar/graduation). Schedule an appointment with your WMU Bronson School of Nursing Advisor to complete a graduation application. To be eligible for graduation with a Bachelor of Science in Nursing degree, the student must have completed the required 125 hours of coursework with a minimum cumulative grade point average of 2.0.

**Misconduct**

2. Proscribed conduct rules and regulations regarding the following behaviors are delineated in the student code: alcohol use, credit card misuse, dishonesty, disruptive behavior, drug possession, failure to comply, failure to provide identification, fire equipment misuse, hazing, identification misuse, obscene communication, physical or verbal abuse, sexual misconduct, telecommunication misuse, theft, unauthorized entry, key possession, unauthorized posting, violation of the law, violation of university policies and weapon possession or use. Initiation of charges against any nursing student regarding misconduct in these behaviors will follow the Office of Student Conduct protocol.

3. Proscribed policies and procedures regarding academic honesty and conduct are delineated in the WMU Undergraduate Catalog under “Students Rights and Responsibilities” (http://catalog.wmich.edu/content.php?catoid=24&navoid=974#gene_univ_poli). Violations of academic honesty include but are not limited to: cheating, fabrication, falsification and forgery, multiple submission, plagiarism, complicity and computer misuse. In addition, the process of charging a student with a violation as well as the steps of due process are delineated in the catalog. Nursing students are subject to these policies and procedures.

4. Nursing students who violate professional standards in clinical settings may be charged by a faculty member. These behaviors may include breach of patient confidentiality, chronic tardiness to nursing practice sites, unprofessional behavior, or other violations of the American Nurses’ Association Code of Ethics. The process includes:

   a) Any faculty member may file written charges against a nursing student for unprofessional conduct. Charges will be presented in writing and directed to the Student Affairs Committee. Any charge should be submitted as soon as possible after the event takes place, preferably within five University business days.
b) Within five working days, the faculty member will meet with the student, the course coordinator, and the RN to BSN Program Coordinator to attempt negotiation and resolution.

c) If resolution is not reached, the RN to BSN Program Coordinator will refer the matter to the Student Affairs Committee for decision/resolution. A written recommendation will be made regarding the matter to the student and the faculty member.

d) If the recommendation/resolution is still not satisfactory to the student and faculty member, a copy of the written recommendation and the initial charges will be presented to the Director. Within ten working days of receipt of the report, the Director will meet with the student and the faculty member who filed charges. A recommendation will be made regarding the matter to the faculty.

e) Faculty will make the final recommendation and the Director will notify the student.

Appeals

1. A student who chooses to appeal a final course grade that has been recorded by the Registrar on the student’s academic record or wants to appeal a decision to dismiss the student from the academic program must follow the process delineated in the WMU Undergraduate Catalog.

2. A student who believes that a WMU BSON incident/policy/decision has not been administered fairly may appeal the decision in the following manner.

   a) Within five working days of the date of the incident/policy/decision in question, the student must submit a written report to the faculty member involved in the incident.

   b) Within five additional working days, the faculty member and course coordinator will meet with the student to attempt to negotiate a resolution.

   c) If the problem is not resolved, the Student Affairs Committee Chair (SAC) will be notified by the student in writing of the incident/policy in question. The SAC Chair will meet with the faculty member and the student involved in the incident and present the data/information to the SAC.

   d) The Student Affairs Committee will make a recommendation in writing to the Director and notify the student of the recommendation.

   e) If the problem is still not resolved satisfactorily, the student must notify the Director in writing within five days of receiving the Student Affairs Committee decision. The Director collects information from the parties involved. The Director informs the student of the final decision.
**Students who fail to progress or leave the program**

In order to maintain up-to-date records and to compile assessment data, students who leave the program will be contacted by the Student Advisor and/or the Director of the School of Nursing.

**Policy Changes**

Approved policy changes will be made available to currently enrolled students through:

1. The student handbook; and/or
2. Direct communication from the WMU BSON; and/or
3. Communication with course coordinators.

Note: Nursing classes are typically only offered in the semester in which they are listed above. Subject to modification by the Bronson School of Nursing.
NUR 3400: Transition to Professional Nursing (3 hours)
This transition course introduces the associate degree or diploma nurse to professional practice. Theoretical foundations, concepts of evidence based practice, and critical thinking are introduced and applied.

Prerequisites: Admission into the RN-BSN program and current licensure as a Registered Nurse.

NUR 3420: Health Assessment throughout the Lifespan for RNs (3 hours)
NUR 3420 introduces the nursing student to the concepts and skills related to health assessment. The course is designed to provide the student with overview of the knowledge and skills needed to assess the health status of the individual from infancy through old age. Emphasis is placed on the assessment of physical, developmental, psychosocial, cultural, and spiritual dimensions of the individual. Emphasis is also placed on assessing the functional abilities of an individual and distinguishing normal from abnormal findings. The practice experience will provide students the opportunity for skill acquisition in history-taking, assessment, and documentation of assessment findings, focused on the adult client. An overview of variations of skills related to the mother-to-be, newborn, child, and elderly will be discussed. The expected level of proficiency is basic competency in assessment of the healthy adult.

Prerequisites: NUR 3400 or special permission.

NUR 3330: Health Informatics (3 hours)
This course is designed to familiarize the undergraduate health professional student with the present and potential impact of health care informatics on nursing and other allied health disciplines. It will also address how informatics tools and systems can assist in providing solutions to health care provider education and practice. An emphasis is placed upon the provider’s role as a leader and advocate for change in this rapidly emerging field.

Prerequisites: Minimum of 42 credit hours completed with a grade of “C” or better in all courses; and (CIS 1020 or CIS 1100 or CS 1000 or FCS 2250) with a grade of “C” or better, or permission of instructor.

NUR 3220: Health Care Ethics (3 hours)
This course is a didactic course that introduces students to principles and issues underlying and surrounding health care ethics. Content includes basic ethical theories, values, moral development, moral reasoning, and day-to-day ethical concerns. These concerns include, but are not limited to genetics, end-of-life care and decision-making, moral reasoning, moral principles, research ethics, the interface between law and ethics, patient decision-making, rights, duties and obligations of the professional nurse and other health workers, professional codes and standards, and allocation of scarce resources. The course offers the learner an opportunity to develop, implement, and evaluate a variety of approaches to ethical concerns of the 21st century.

Prerequisites: Minimum of 45 credit hours completed.

NUR 3430: Nursing Research - RN (3 hours)
This course is designed to provide a foundation for the use of research findings as a basis for practice. The course focuses on nursing research as it relates to the theoretical foundations of the discipline of nursing and to the development of a scientific basis for nursing practice. It prepares the learner to understand the language of science and the processes of scholarly inquiry. It also
prepares the learner to read, interpret and evaluate selected nursing studies and appropriately determine the clinical relevance of study findings and their implications for practice. The primary goals of the course are to explore the impact of research upon the profession of nursing, and to examine the research process as it relates to the practice of nursing. This course meets the baccalaureate requirements for being a writing intensive course.

**Pre-requisites:** STAT 3660; NUR 3400; NUR 3420; NUR 3220

**NUR 4330: Population Based Nursing - RN (6 hours)**
This course focuses on nursing roles and interventions for vulnerable populations emphasizing primary, secondary and tertiary levels of prevention. Students will examine determinants of health, apply theories of health behavior change, and evaluate outcomes of care for a vulnerable population. Health policies and health economics and their effects on the delivery of health services will be discussed from a local to global perspective. Nursing practice takes place in a variety of community settings.

**Pre-requisites:** NUR 3400 and NUR 3430

**NURS 4340: Nursing Leadership and Management-RN (6 hours)**
This course introduces the leadership roles and management functions expected of a professional nurse with an emphasis on patient safety and quality improvement. Students will submit a clinical project applying the course concepts to a patient care setting.

**Pre-requisites:** NUR 3400 and NUR 3430
Nursing Students’ Responsibilities & Rights

Advising

It is the students’ responsibility to ensure that they have successfully completed all requirements for graduation by the prescribed semester. Academic advising is provided to assist in this process and is a partnership, shared by the faculty, the student, and the academic advisor. The student must schedule appointments with the WMU BSON advisor by calling the Bronson School of Nursing office at (269) 387-8150. The advisor guides the students regarding sequence and program requirements. Student can monitor their progress toward degree completion in Degree Works at http://www.wmich.edu/registrar/graduation-bachelors.

Student Policies

Students' rights are published in the WMU Undergraduate Catalog. Students are responsible for knowing and adhering to the policies and recommendations set forth in the current edition of the WMU Undergraduate Catalog regarding the following matters:

1. Academic honesty
2. Conduct in research
3. Academic conduct violation: consequences and appeal
4. The Family Educational Rights and Privacy Act
5. Sexual harassment and sexism
6. Discrimination: complaints and grievance
7. Academic grade appeals / program dismissal
8. President's statement on racial and ethnic harmony

In addition, the Student Code of WMU further elaborates and sets boundaries on behaviors related to the health, safety or property of others. The Student Code also describes due process and judicial hearing procedures governing other illicit student behaviors such as: illegal drug use, unauthorized entry, assault, disorderly conduct, etc. http://catalog.wmich.edu/content.php?catoid=24&navoid=974

Grades and Transcripts

Your transcript is the official, permanent record of all the courses you have attended at Western Michigan University. Classes you have attended at other institutions do not show on your WMU transcript. Western Michigan University has authorized Parchment Exchange to manage the ordering, processing, and secure delivery of student transcripts. Students will be required to open a “one time” account for this service. Complete directions and fees for this service can be found on the Registrar’s web page under the Transcripts tab. Grade reports are available to students through the online course site. The system of grades and honor points, policies on incomplete grades, and grade changes are described on the Registrar’s web site, in the Undergraduate Catalog and the Student Handbook. Enrolled students who wish access to academic files may do so by making a request of the program.
Nursing Practice - Course Guidelines

Attendance and Participation Requirements
Attendance is expected during educational interactions. Attendance and participation requirements are outlined in the syllabus for each course. In the event of illness or crisis, students are expected to notify the faculty and to participate in planning options to make up the missed learning experience. The manner in which the time or experience is made up is between the student and the responsible faculty person. If makeup hours cannot be arranged within the time parameters of the semester, the student may request an incomplete for the course if the student has successfully completed all other requirements of the course.

Attendance at Practice Site while Chemically Impaired (Drug or Alcohol)
The ANA Code of Ethics states “Nurses must protect the patient, the public and the profession from potential harm when practice appears to be impaired” (ANA, 2015, 3.6) [http://www.nursingworld.org/MainMenuCategories/EthicsStandards/CodeofEthicsforNurses/Code-of-Ethics-For-Nurses.html]). In addition, the faculty abides by the ANA Scope and Standards of Practice, 2nd ed. which states that the nurse “takes appropriate action regarding instances of illegal, unethical, or inappropriate behavior that can endanger or jeopardize the best interest of the healthcare consumer or situation.” (ANA (2010). Nursing, Scope and Standards of Practice, Silver Spring, Maryland, p. 47).

Due to the nature and seriousness of nursing practice, it is essential that all nursing students in the didactic or clinical environment be unimpaired at all times. Impairments can be drug or alcohol induced in nature. Any student in a clinical or laboratory site suspected of being drug or alcohol impaired will be confronted by an instructor/supervisor to ascertain the degree of impairment. Signs and symptoms of possible substance-related impairment include, but are not limited to, odor of alcohol or cannabis (marijuana) on the student, slurred or incoherent speech.

Protocol for Encountering a Chemically Impaired Student
If in the judgment of the instructor or supervisor a student is deemed to be substance impaired, the student will be immediately removed from patient contact. Agency policy is then followed. If the agency policy does not include drug testing, it is the policy of WMU BSON that the student undergoes testing for the presence of drugs and/or alcohol. The clinical faculty is responsible for completing the agency incident report and the appropriate reporting form for WMU BSON.

Testing may be performed at the agency, at the Sindecuse Student Health Center or requested of an Emergency Department. Testing may be at the student’s expense. Failure to agree to the test is defined as an admission of substance abuse and is handled according to WMU and BSON policies. Testing must be completed within one hour of the student being deemed impaired. If this does not occur, the student is handled in the same manner as if he or she refused to be tested.

Any nursing student whose blood alcohol level or drug level is reported as positive to the Director of the WMU BSON or who declines to be tested will not be able to continue in clinical placement for the remainder of the semester and must immediately withdraw from all clinical nursing courses for the remainder of the semester.

The student will be entitled to all rights and responsibilities as outlined in the WMU Office of Student Conduct (http://www.wmich.edu/conduct/).
Permission to re-enroll in the course must be requested by sending a letter to the RN to BSN Program Coordinator asking for reinstatement. The letter must include the student’s plan for return with rationale for that return. Permission will be dependent on the conditions specified below as well as space available in the class.

Reinstatement within the nursing course must include the following conditions:
1. Referral to and enrollment in an alcohol or drug rehabilitation program approved by the WMU BSON.
2. Disclosure from student’s alcohol or drug treatment program documenting successful progress and prognosis for long-term recovery with the health care professional’s recommendation that the student may re-enter the nursing course.
3. Negative drug screening prior to return to the course and clinical placement.
4. Random negative alcohol or drug screening as determined by the WMU BSON director in consultation with the director of the approved alcohol treatment program.
5. For the continuation of the student’s undergraduate career in the WMU nursing program, the student will be subject to random drug testing at the discretion of the Director of the WMU BSON.

A subsequent positive alcohol or drug screen will result in immediate expulsion from the nursing program, with no option of returning. Any student may be asked to submit to a test for blood alcohol or to a breathalyzer test at any time. If the policies of a clinical site are more restrictive than those outlined above, they will take precedence.

**Attendance at Practice Site Sleep Deprived/Fatigue Impaired**
Current research related to sleep deprivation and fatigue clearly demonstrate that attending clinical learning immediately following a work shift decreases students’ ability to learn new material and increases the potential for patient care errors. ANA position statement: [https://www.nursingworld.org/practice-policy/hnhn/2017-year-of-the-healthy-nurse/healthy-sleep/](https://www.nursingworld.org/practice-policy/hnhn/2017-year-of-the-healthy-nurse/healthy-sleep/).

Students are expected to arrange their work, study and social activities so that the student attends clinic in the best state possible to be a safe and successful learner.

**Student Preparation**
Preparation is expected for assignments in each nursing course as specified in individual course objectives. A nurse must be accountable and prepared to care for clients. Preparation includes knowledge, attitude, and skills. Consequences and remediation strategies for students who are not prepared to deliver safe care will be determined by the faculty member. Consistent absences and poor preparation may constitute grounds for failure of a nursing practice course.

Faculty reserve the right to prohibit continuance or readmission of the student to the clinical setting in cases where, in the professional judgment of the faculty, student or client welfare is in jeopardy.

**Student Email**
The official WMU issued student email is the only email address that may be used for academic purposes. This email address typically takes the form firstname.middleinitial.lastname@wmich.edu or firstname.lastname@wmich.edu. All communication to and from will come from this address.
**Student Communication Responsibility**

- Attend to university email at least twice weekly.
- Respond to program and faculty emails promptly (within 3-4 days).
- Students with repeated non-response to program/faculty emails may jeopardize their opportunity for clinical placements in the desired semester, which may mean they are not able to take a course.
- Students with repeated non-response to program/faculty emails may be placed on Academic Warning or an Academic Performance Contract.

**Dress Code Guidelines**

Personal appearance must comply with clinical facility policy.

**Identification:** Students must wear the WMU BSON name badge, printed with their first and last name, during nursing practice experiences. Additional identification may be required by practice sites.

**Uniform:** RN-BSN students must clearly identify their status as a WMU BSON student by wearing their WMU BSON name badge when engaged in clinical or community nursing experiences associated with WMU coursework. Professional dress guidelines and lab coat use will be addressed specific to agency guidelines during NUR 4330 and NUR 4340.

**Shoes:** Students will wear footwear which is clean, closed toe and heel, polished, and in good repair. Footwear will be appropriate to the work duties and responsibilities performed and meet the safety needs of the work environment. Students assigned to inpatient care areas will wear white or black shoes without excessive logos (example neon, glitter, etc.), while students in outpatient practice sites will conform to the practice site requirements.

**Hair:** Hair must be combed, clean and neat. Students who work in patient care areas or with machines must have their hair pinned off their shoulders and secured away from their face in order to promote safety for self and patients. Facial hair must be clean and trimmed and beard must be of an appropriate length to promote safety for self and patients.

**Nails:** Nails must be clean and well groomed. In some practice sites, artificial nails are prohibited for infection control reasons. In addition, nail art is not appropriate for the health care environment.

**Jewelry:** The wearing of jewelry must be consistent with the safety of patients and professional work environment. No jewelry which poses a safety or health risk to students or patients will be allowed. Students may wear post earrings or small hoops. Body piercing must be appropriately concealed or removed.

**Tattoos:**

Visibility of tattoos must comply with agency policy.

**Transportation Requirements**

Students are responsible for their transportation to clinical settings and home visits. Students should allow adequate time to travel to their destinations on time, especially in winter months.
Students who do not have access to a car should use public transportation or make arrangements to carpool. Parking spaces are often limited at many locations.

**Health Requirements**

*My Record Tracker*

The BSON Coordinator of Nursing Clinical Operations will set up the “My Record Tracker” account with Certiphi. Once this account is established, students will receive an invitation from “My Record Tracker” to complete their identifying information and then can immediately start uploading all required documents. *It is the student’s responsibility for keeping all documents updated.* The following are the required documents:

- Student Information Release Authorization
- Valid Nursing license
- Proof of immunizations
- Proof of Cardio Pulmonary Resuscitation for Provider or BLS by American Heart Association
- Approved facility HIPAA and OSHA documents

Students whose documentation is incomplete or expired will not be allowed in clinical settings.

*Student Information Release Authorization*

A Student Information Release Authorization document is located in the “My Record Tracker” website under documents. Students will print, sign and upload the required document.

*Immunizations*

Undergraduate nursing students entering a health facility for their clinical experience must adhere to the requirements of that facility. The following documentation must be uploaded into My Record Tracker, which is required of all students who will be enrolling in courses with a clinical component:

1. **Tuberculosis 1 Step PPD**
   A negative 1-step PPD or one negative TB IRGA Blood Test, OR a positive TB screen with a negative chest x-ray, OR a history of a positive TB screen with a negative chest x-ray and treatment with appropriate anti-tubercular drugs is required. Please set the expiration date at one year from the date of the latest test. Upon renewal a 1-step negative TB screening is required OR after a positive PPD, a TB survey, available from the School of Nursing is submitted by the student for review. If a student should convert to positive, then appropriate evaluation and treatment must be sought before the student can return to the program.

2. **Influenza**
   Students are required to receive the influenza vaccine on a yearly basis. Students must receive a flu shot that is available after August 1st through November 1st of each year. The Influenza requirement is due no later than November 1st of each calendar year.

3. **MMR – Mumps, Rubeola (American Measles), Rubella (German Measles)**
   Please provide a record of two shots of MMR or a positive titer result. If only negative titer is provided, then documentation of initial 2 MMR shots must be provided. Proof of 2 shots MMR is sufficient for approval regardless of negative titer.

4. **TDAP**
   Tetanus, Diphtheria and Pertussis within the last 8 years.
5. **Hepatitis B Vaccine**
   Students must have received 3 doses of Hepatitis B vaccine OR been tested for the presence of surface antibodies OR be in the process of completing the series.

6. **Varicella**
   Students must have had 2 shots of varicella vaccine, or titer of positive varicella serologic testing. Physician confirmation of confirmed case is acceptable. If only negative titer is provided, then documentation of initial 2 varicella shots must be provided. Proof of 2 shots Varicella is sufficient for approval regardless of negative titer.

**Certified Cardio Pulmonary Resuscitation for Health Professionals**
All students enrolled in nursing practice courses must have a valid HealthCare Professional Basic Life Support card from the American Heart Association.

**Standard Precautions and Health Insurance Portability and Accountability Act**
Students are required to provide written verification of understanding of Standard Precautions and Health Insurance Portability and Accountability Act annually. Approved facility HIPAA and OSHA documents can be uploaded to My Record Tracker for approval.

**Body Fluid Exposure Policy**
Students and faculty members are expected to respond immediately to incidents of exposure to blood or other body fluids through puncture, cut, splatter or aerosolization. If practice agency policy and WMU-BSON policy are in conflict, WMU-BSON policy takes precedence.

**Student will:**
1. Make puncture site bleed.
2. Wash the area thoroughly with soap and water.
3. Report incident immediately to the faculty member and facility/agency liaison.
4. Complete any required agency forms (incident report).
5. Within 24 hours complete the WMU-BSON Body Fluid Exposure form (obtain from practice instructor).
6. Obtain follow-up services of the student’s choice, at the student’s expense.

**Clinical Practice Instructor will:**
1. Report incident to the Director of WMU-BSON within 24 hours.
2. Assist student in completing any required agency forms and/or WMU-BSON Body Fluid Exposure form and validate that student has notified facility/agency liaison.
3. Assist student in reviewing “Suggestions for Needlestick or Other Contaminated Injuries" (listed below).
4. Have the student complete and sign the WMU-BSON Body Fluid Exposure form and document the student’s decision as per follow-up option.
5. File copy of WMU-BSON Body Fluid Exposure in the student’s file

**Suggestions for Needlestick or Other Contaminated Injuries:**
1. Obtain follow-up services of student’s choice.
2. Practice instructor and/or facility/agency liaison will examine the patient’s health record to identify any of the following patient conditions and advise the appropriate action:
<table>
<thead>
<tr>
<th>Patient Status</th>
<th>Action Recommended</th>
</tr>
</thead>
<tbody>
<tr>
<td>No history of hepatitis or syphilis</td>
<td>Obtain tetanus booster if not current</td>
</tr>
<tr>
<td>History of possible hepatitis</td>
<td>Consider prophylaxis with Immune Serum Globulin (ISG) or</td>
</tr>
<tr>
<td></td>
<td>Consider Hepatitis B Immune Globulin (HBIG)</td>
</tr>
<tr>
<td>History or possibility of Syphilis</td>
<td>Advise that in 90 days a VDRL should be obtained on the exposed student</td>
</tr>
<tr>
<td>History or possibility of HIV</td>
<td>Pursue follow-up service</td>
</tr>
</tbody>
</table>

3. If the puncture wound is not associated with known patient (i.e., item found in linen or trash), the practice faculty will inform the agency Infection Control Nurse or Department of Infection Control of the injury. Student to pursue follow-up of choice. Consider ISG 3cc.

4. If questions arise concerning the proper procedure to follow, the agency Department of Infection Control should be consulted.

**Policy on Criminal Background Check**

Pursuant to Section 20173 of the Michigan Public Health Code (http://www.legislature.mi.gov/%28S%28zncyql1rb0m2nvhyynbp1y0iv%29%29/mileg.aspx?page=GetObject&objectname=mcl-333-20173a) and the requirements of clinical/field placement partners, a criminal background check is required for all applicants to the College of Health and Human Services programs as a part of the process for placement in clinical practice sites. The criminal background check is conducted in order to verify that the individual has had no criminal convictions. These would include:

- any felony, or an attempt or conspiracy to commit a felony within 15 years immediately preceding the date of clinical privileges;
- a misdemeanor that involved abuse, neglect, assault, battery or criminal sexual conduct against anyone or fraud against a vulnerable adult or a state or federal crime that is substantially similar to such a misdemeanor, within the 10 years immediately preceding the date of clinical privileges.

The criminal background check will be conducted for all students. Students must go online to order their background check. Instructions on how to order the background check will be distributed to the appropriate students at the beginning of each semester.

After a student has been admitted to the nursing program he/she is required to immediately inform the Director of the WMU BSON if he or she is subsequently arrested for or convicted of any of the criminal offenses covered by the Michigan Public Health Code Section 20173.

Any student who has been convicted of a crime as indicated above or who is subsequently convicted of criminal offenses covered by Michigan Public Health Code 20173 will not be placed into the clinical/field placement of any course which requires such clinical/field placement, and will be removed from any such clinical/field placement if already placed. Completion of all clinical/field placements is a graduation requirement. A degree will not be granted to any student who does not successfully complete all required clinical/field placements.
Policy on Drug Screening

Sites for student clinical placements are now requiring that a drug screen be completed annually as a prerequisite to placement.

All drug screening will be performed by the approved BSON contracted drug testing center. You will not be allowed to have the drug test performed at any other health care facility. Records of drug screening will be kept in an electronic file by the contracted testing center.

The instructions and forms for drug screening will be distributed prior to the beginning of the semester. The drug screen must be completed before the student’s first day of clinical/field placement or the student must withdraw from the course. If a student’s drug screening is unacceptable to the placement site, they will not be placed into the clinical/field placement of any course which requires such placement. Further action may need to be taken regarding continuation in the WMU BSON as well.

**Policy in the event of a positive drug screen**

Any nursing student whose drug screening is reported to the Director of the WMU BSON as positive for: amphetamines, cocaine, marijuana, opiates, PCP, barbiturates, benzodiazepines, methadone, propoxyphene or methaqualone will not be able to continue in a clinical placement. The student must immediately withdraw from the clinical site and the corresponding course or courses for that semester.

Students wishing to reenroll should refer to the Change in Program of Study policy included in this handbook. Reinstatement within the nursing course must include the following conditions:

1. Referral to and enrollment in a drug rehabilitation program approved by the BSON.
2. Disclosure from student’s drug treatment program documenting successful progress and prognosis for long-term recovery with the health care professional’s recommendation that the student may re-enter the nursing course.
3. Negative drug screening prior to return to the course and clinical placement.
4. Random negative drug screening as determined by the BSON director in consultation with the director of the approved drug treatment program. (Every 30 days is recommended.)

A subsequent positive drug screen for any substance either with the same drug or any other listed drug (amphetamines, cocaine, marijuana, opiates, PCP, barbiturates, benzodiazepines, methadone, propoxyphene, methaqualone) will result in expulsion from the nursing program.

WMU Upsilon Epsilon Chapter of Sigma Theta Tau International Honor Society

The WMU Upsilon Epsilon Chapter of Sigma Theta Tau International Honor Society of Nursing (Sigma) is comprised of WMU BSON graduates, senior level undergraduate and graduate students, members of Sigma, and community nurse leaders who have met set criteria for membership. Society membership is a rewarding connection with nurses at the local, regional, national and international levels who share the need to make a difference.
The mission of the WMU Upsilon Epsilon Chapter is aligned with that of Sigma which is to provide leadership and scholarship in practice, education and research to enhance the health of all people. Sigma supports the learning and professional development of our members who strive to improve nursing care worldwide.

One can become a member in one of two ways:

1. Academic
   - Current student meeting the following criteria:
     - upper 1/3 of class
     - GPA ≥ 3.0

2. Professional
   - Community members who have demonstrated achievement in the areas of nursing education, practice, research, administration or publication. Requirements also include current RN licensure, and completion of a baccalaureate degree or higher in nursing or another field.
   - Current Sigma member: Can be a member of multiple chapters or honor societies

The tradition of honor societies is that individuals who qualify and who demonstrate leadership potential are recommended by current society members for an invitation to join. An invitation should be received with pride.

Liability Insurance

Students are covered by WMU's group liability insurance policy when officially engaged in WMU course work requirements. Students may wish to carry an additional liability policy.

The Americans with Disabilities Act (ADA), 1990

The Americans with Disabilities Act (ADA), 1990, was promulgated by the United States Congress to prohibit discrimination against qualified individuals with disabilities. Disability is defined in the Act as a person with a) physical or mental impairment that substantially limits one or more of the major life activities of such individuals; b) a record of such impairment; or c) being regarded as having such an impairment. A "qualified individual with a disability" is one, with or without reasonable accommodation or modification, meets the essential eligibility requirements for participation in the program.

Amendments to the Americans with Disabilities Act (ADA) signed into law on September 25, 2008, clarify and reiterate who is covered by the law's civil rights protections. The “ADA Amendments Act of 2008” revises the definition of “disability” to more broadly encompass impairments that substantially limit a major life activity. The amended language also states that mitigating measures, including assistive devices, auxiliary aids, accommodations, medical therapies and supplies (other than eyeglasses and contact lenses) have no bearing in determining whether a disability qualifies under the law. Changes also clarify coverage of impairments that are episodic or in remission that substantially limit a major life activity when active, such as epilepsy or post traumatic stress disorder. The amendments took effect January 1, 2009.
Any student with a documented disability (e.g., physical, learning, psychiatric, vision, hearing, etc.) who needs to arrange reasonable accommodations must contact Disability Services at 387-2116 at the beginning of the semester. A disability determination must be made by this office before any accommodations are provided by the instructor. [http://www.wmich.edu/disabilityservices](http://www.wmich.edu/disabilityservices)
Financial Assistance and Scholarship

All scholarship applications are due February 1 for the following academic year.

**Bronson Health Foundation Scholarship**
The Bronson Health Foundation Scholarship shall be awarded to a full-time undergraduate nursing student. Preference shall be given to a student who is a resident of Kalamazoo county with a minimum grade point average of 3.0. Financial need as determined by the Office of Student Financial Aid shall be a secondary consideration. A minimum of one award shall be provided annually with an award amount of not less than $500 nor greater than $2000 and shall be divided equally among the recipients. The scholarship is renewable for up to three academic years. Recipients must maintain satisfactory academic progress.

**Bronson Methodist Hospital School of Nursing Alumni Scholarship**
The Alumni Association of the Bronson Methodist Hospital School of Nursing Scholarship shall be awarded to full-time or part-time, undergraduate or graduate student who has been accepted into the WMU Bronson School of Nursing. Preference shall be given to an alumnus of the Bronson Methodist Hospital School of Nursing. The student must maintain a minimum grade point average of 3.0. The Scholarship is renewable for up to four academic years with demonstrated satisfactory academic progress. Disbursement shall be determined by available funds with a minimum of one award provided annually.

**Loren E. and Nellie M. Clark Scholarship**
The Loren E. and Nellie M. Clark Nursing Scholarship shall be awarded to an admitted undergraduate or graduate nursing student representing a non-dominant underrepresented culture. The student may be full or part time and must maintain a 2.25 grade point average. The scholarship shall be renewable with demonstrated satisfactory academic progress. Disbursement shall be determined by available funds with a minimum of one award provided annually.

**The Sidney J. and Sharie L. Falan Scholarship**
The Sidney J. and Sharie L. Falan Scholarship is awarded to a senior level (4000) student who is a member of the Student Nurses’ Association. The recipient shall have a minimum 3.5 GPA and have an interest in nursing administration or informatics which will be demonstrated through a two hundred and fifty (250) word essay describing a current issue in the use of technology for health care delivery and how it applies to their practice.

**Rosalie Clauwaert Lloyd Memorial Scholarship**
The Rosalie Clauwaert Lloyd Memorial Scholarship for Nursing Education is distributed through the Kalamazoo Foundation. The annual scholarship is intended to benefit a Kalamazoo County High School graduate who is enrolled in the nursing curriculum. Students must have a demonstrated financial need and commitment to the ideals of the profession.
Marie F. Gates Scholarship
The Marie F. Gates scholarship shall be awarded to full-time students majoring in Nursing. At the time of application, undergraduate students shall have a minimum 3.5 grade point average and graduate students shall have a minimum 3.7 grade point average. Preference will be given to first generation students (i.e., students whose parents did not graduate from college).

Nicole Jennings Endowed Scholarship in Nursing
The Nicole Jennings Endowed Scholarship in Nursing shall be awarded to a full-time sophomore, junior or senior enrolled in the School of Nursing. The recipient shall have a minimum cumulative 3.0 GPA at the time of application. Recipients must be graduates of a Michigan or Wisconsin high school. Preference shall be given to students who demonstrate financial need due to socioeconomic disadvantages.

Theodore and Hazel Perg Scholarship
The Theodore and Hazel Perg Scholarship is awarded to eligible WMU BSON students who have graduated from Southwest Michigan high schools in Allegan, Barry, Berrien, Branch, Calhoun, Cass, Kalamazoo, St. Joseph, or Van Buren counties. The scholarship, initiated by Theodore Perg in memory of his wife Hazel, is intended to benefit the nursing profession and ultimately humanity by providing financial assistance to students who would not otherwise be able to pursue their education in nursing. The scholarship is designed to support the cost of tuition, books, and other educational expenses. The scholarship is renewable each year as long as the recipient is enrolled in the WMU BSON. While the scholarship is based in part upon need, recipients are not required to meet the same guidelines established by the federal government.

Lois I. Richmond Nursing Scholarship
The Lois I. Richmond Nursing Scholarship shall be awarded to a full-time undergraduate nursing student. Preference shall be given to eligible students who have demonstrated a financial need and have a minimum grade point average of 3.0 at the time of application. The amount of the scholarship shall be determined by fund accruals with half of the amount applied to the fall semester and the remainder to the winter semester. The scholarship is renewable as long as the recipient remains a full-time undergraduate nursing student and demonstrates satisfactory academic progress.

Anastasia E. Schauer Memorial Scholarship
The Anastasia E. Schauer Memorial Scholarship shall support scholarships for students enrolled in the Bronson School of Nursing BSN program who have a minimum 3.0 GPA. Preference will be given to transfer students from Kalamazoo Valley Community College.

Lessie Mae Terrell Scholarship
The Lessie Mae Terrell Scholarship shall be awarded to a full time sophomore, junior or senior enrolled in the School of Nursing. The recipient shall have a minimum cumulative 3.0 GPA at the time of application. Preferences shall be given to students who demonstrate financial need due to socioeconomic disadvantages. Current recipients may reapply for this scholarship the next academic year provided they have demonstrated satisfactory academic progress.
June M. Sherman Spirit of Life Scholarship
The June M. Sherman Spirit of Life Scholarship shall be awarded to non-traditional students, defined as either students who are single parents or from working single parent families. Preference shall be given to, but not limited to, students indicating a career interest in mental health, pediatrics, oncology or nursing administration. The scholarship shall be available to third and fourth level students and shall be renewable up to a maximum of two consecutive academic years. The recipients shall have, and maintain, a 3.0 minimum grade point average. The scholarship fund has been established by V. Clayton Sherman in honor of his mother, June M. Sherman and his late sister, Nola Benson both of whom were nurses. Scholarship amount and disbursement shall be determined by fund accruals.

Other Scholarships
Opportunities for scholarship assistance may occur during the year. When these opportunities arise, students will be informed so they may take advantage of those opportunities.

Career Services
Assistance with career questions and job search preparation is offered free of charge by the Office of Career & Student Employment Services: http://www.wmich.edu/career/students. This website offers services including career fairs, resume critiquing, individual advising sessions, and workshops on resume writing, job search strategies, and interviewing. A career resource library, workshops, employer visits, and advising by appointment take place in the main office on the first floor of Ellsworth Hall (269 387-2745).
