• Review case studies for strengths, challenges and systemic factors impacting the intervention and or implementation of the intervention. Write a 1 page reflection for each case study or discuss with your field instructor.
• Complete simulations and share scripts of these simulations with field instructors to discuss in clinical supervision.
• Identify and complete on-line training modules and provide the following:
  - certification of completion
  - short written reflection
  - presentation to disseminate knowledge gained
  - develop trainings that will benefit the agency (e.g, Student orientation and onboarding materials, social work ethics, treatment innovation, etc.).
Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

- Assess agency process for seeking client feedback and develop recommendations for improvement. Share with your field instructor or share recommendations in writing.
- Review literature on termination of relationships within the workplace setting (with agency staff, community partners, clients, etc.). Develop a written set of tips for students around how to terminate from field placement.
- Think about and plan discussions for terminations with task groups, community members/clients, and agency staff considering current circumstances. Create a termination form for your own use with clients.
- In writing, identify the structures in place for evaluating the field agency’s outcomes. Compare and contrast this evaluation mechanism with structures in place for similar agencies (in other counties, states, countries). Write a 1-2 page reflection on what you’ve learned and share with your field instructor.

Field Instructors and Task Supervisors may come up with other activities or trainings, in addition to the ones listed on this page. All activities need to be pre-approved by their Field Instructor and the WMUSSW Field Faculty.

Confidentiality and the Use of Technology

All students must comply with relevant laws, regulations, NASW ethical standards, and organizational policies to ensure the confidentiality of clients.

While each agency should develop their own protocols around the use of technology and confidentiality, the following best practices should be followed by all students:

- Take reasonable steps to maintain appropriate boundaries when using personal phone numbers or other electronic communication. For example, consider temporarily hiding your caller ID when making outgoing calls to clients.
- Position web cameras so that others can only see your face - all visible confidential data should be removed from camera view.
- Conduct all sensitive conversations in a private space. Be mindful of the potential for family members or bystanders to overhear any portion of your discussions.

We express gratitude to the multiple contributors who shared resources in the development of this policy (Regis College, University of Denver, University of Michigan and UNC Chapel Hill).
