WMU Accreditation Fast Facts
2019 Update

Specialized Program and Facilities Accreditation

- WMU maintains a relationship with 28 accrediting agencies (i.e., 23 specialized program, five facilities)
- All seven academic colleges offer accredited degree-granting and non-degree-granting programs
- 123 degree-granting programs are accredited at WMU (i.e., 122 programs remain in good standing with their accrediting agencies; one program is currently on probation)
- Two non-degree granting programs are accredited (i.e., CELCIS, graduate-level dietetics internship)
- Five agencies accredit WMU facilities (i.e., Sindecuse Health Center, SHC Laboratory and Radiology departments, WMU Behavioral Health Services, WMU Center for Disability Services, WMU Children’s Place Learning Center, WMU Landscape Services)
- Three facilities are accredited to provide students with training and supervision in their fields of study (i.e., Sindecuse Health Center, SHC Laboratory and Radiology departments, WMU Children’s Place Learning Center)

Specialized Program and Facilities Certification and Licensure

- Intercollegiate Athletics is certified by the NCAA as a Division I institution
- The B.S. in Chemistry provides an option certified by the American Chemical Association
- Western Michigan University is certified for metal casting by the Foundry Educational Foundation
- The College of Aviation holds two FAA certificates and one MDOT license
- The Children’s Place Learning Center holds one MDHS license
- WMU Behavioral Health Services holds one MDCIS-BHS license
- One academic program (i.e., B.S. in Chemistry), and one group of courses (i.e., metalcasting courses) are certified
