Counselor Newsletter: January 2020

SENDING UPDATED APPLICATION MATERIALS
To increase their application profile, we are encouraging students whose admission has been deferred to submit updated information to our office by February 1. This may include updated transcripts, updated test scores and an admissions essay.

Students can submit their test scores through ACT or College Board or self-report their test scores to us through their Gold Gateway account. Official transcripts can be sent to us in several ways.

Any additional information a student wants added to their application can be sent to the Office of Admissions at admissions-application@wmich.edu.

If you have any additional questions about a particular student, please contact your admissions representative.

2019: A YEAR OF NO.1s AT WMU
Hidden gem. Innovation leader. WMU is garnering national accolades for its programs propelling students to success. Whether it's the University's commitment to student experiences, dedication to sustainability or emphasis on embracing diversity, Broncos earned high praise in 2019. Read More
ADMITT ED STUDENT EVENTS

Admitted Student Events (ASE) are a great way for students to experience many of the things WMU has to offer while completing their next steps with our help. Or, for students who are still making an enrollment decision, these events are the perfect time to get final questions answered. We will be hosting ASEs on:

- Wednesday, January 29
- Monday, February 17
- Friday, March 20
- Friday, April 3

Further event details and a link to register can be found online.

SAVE THE DATE

The Office of Admissions will host our Spring Open House on Saturday, March 28. This is a great opportunity for sophomores and juniors to start the college search process, learn more about WMU, hear tips on the college search process, and more. Registration for the Spring Open House will open mid-January.

STUDENT TEAM LAUNCHING NASA COMPETITION DREAM

Alexis Lind has dreamed of building and launching rockets since watching "October Sky" in seventh grade. Now, as part of the College of Engineering and Applied Sciences' Advanced Rocketry Club, her dream is coming true. The second-year aerospace engineering student and about 25 other club members will compete in the NASA Student Launch competition in April 2020. Western Michigan University's team was one of 42 college teams, and the only Michigan institution, accepted into the prestigious contest. Read More
