

Date of request: 26-OCT-2019

CEHD 1054

Request ID: E-2019-HPHE-111

College: E

Department: HPHE

Initiator name: Carol Weideman

Initiator email: carol.weideman@wmich.edu

Proposed effective term: 202040

Does course need General Education approval?: N

Will course be used in teacher education?: N

If 5000 level course, prerequisites apply to: U

Proposed course data:

Change Course PEGN 1500

Specific Course Change type selected: Title

Specific Course Change type selected: Description

1. Existing course prefix and number:

PEGN 1500

2. Proposed course title:

Swimming - Intermediate

3. Existing Banner course title:

Swimming Adv Beg

4. Proposed course title to be entered in Banner:

Swimming - Intermediate

A. Please choose Yes or No to indicate if this class is a Teacher Education class:

No

B. Please choose the applicable class level:

UndergraduateC. Please respond Yes if this is a current general education course and/or a course being submitted for the new WMU Essential Studies program. Please respond No if it is neither.

No

D. Explain briefly and clearly the proposed improvement.

Change the title and description of PEGN 1500

E. Rationale. Give your reason(s) for the proposed improvement. (If your proposal includes prerequisites, justify those, too.).

Because of the development of the WMU Essential Studies program, there is an opportunity to change and update the course. At its inception, the Health and Wellness series of courses were choices for the General Education Area VIII and designed to accommodate up to (and at some cases more than) 1,200 students/semester. Because of the high number of students and space limitations of the Student Recreation Center, the course design was such that students were provided a single day of physical activity, a single lecture, and a day to meet for discussion. Over time, the number of students have decreased for two main reasons (decreased total university enrollment numbers and an increase in Area VIII choices). Student feedback through course evaluations indicate that consistently, students desire more than one day of physical activity.

This redesign is in response to this feedback. This course will be one of a number of potential co-requisites for HPHE 1701, Health and Personal Wellness Practices. Students can choose to take the course as a stand alone, or as a co-requisite to the Level 2, Exploration and Discovery (Personal Wellness requirement).

F. List the student learning outcomes for the proposed course or the revised or proposed major, minor, or concentration. These are the outcomes that the department will use for future assessments of the course or program.

Develop an understanding and practice of personal wellness through participation in group physical activity setting.

G. Describe how this curriculum change is a response to student learning assessment outcomes that are part of a departmental or college assessment plan or informal assessment activities.

This curriculum change is in response to the transition from the General Education Program to the Essential Studies Program. Informal and formal feedback from students indicated the desire for two days of physical activity. The two days/week the course meets outside of lecture would include physical activity instead of one day of physical activity and one day of discussion.

H. Effect on other colleges, departments or programs. If consultation with others is required, attach evidence of consultation and support. If objections have been raised, document the resolution.

Demonstrate that the program you propose is not a duplication of an existing one.

There is no effect on other colleges, departments, or programs.

I. Effect on your department's programs. Show how the proposed change fits with other departmental offerings.

The course will not affect the department in any way as it is a course that will be a stand alone or co-requisite for the Essential Studies HPHE 1701 course that has been approved.

J. Effects on enrolled students: are program conflicts avoided? Will your proposal make it easier or harder for students to meet graduation requirements? Can students complete the program in a reasonable time? Show that you have considered scheduling needs and demands on students' time. If a required course will be offered during summer only, provide a rationale.

Students will have greater flexibility to select the physical activity course of interest because it is not pre-assigned to a specific lecture. Students previously had to coordinate a lecture time and physical activity course, and this will no longer be a limiting factor for scheduling purposes. This change addressed a common request (of students) to have more physical activity each week.

K. Student or external market demand. What is your anticipated student audience? What evidence of student or market demand or need exists? What is the estimated enrollment? What other factors make your proposal beneficial to students?

The development of the Essential Studies program maintains the student demand for the course. This course will also serve as an option for students looking to become more physically active while filling credit hours. It is very common for students to search for a one or two credit course due to a change in schedule, and this will improve the options available for these students.

The estimated enrollment is 20 students/section.

L. Effects on resources. Explain how your proposal would affect department and University resources, including faculty, equipment, space, technology, and library holdings. Tell how you will staff additions to the program. If more advising will be needed, how will you provide for it? How often will course(s) be offered? What will be the initial one-time costs and the ongoing base-funding costs for the proposed program? (Attach additional pages, as necessary.)

This course is a substitution of PEGN 1810, and two days of the course are already taught by a graduate teaching assistant; no additional staffing will be needed. The Student Recreation Center is available for scheduling PEGN activity courses from 8am to 3pm; there is plenty of time to schedule this course. The course will be offered during the fall and spring semesters. A course fee will be required to fund the lifeguard; the course fee has already been requested for the course this is replacing.

M. With the change from General Education to WMU Essential Studies, this question is no longer used.

For courses requesting approval as a WMU Essential Studies course, a syllabus identifying the student learning outcomes and an action plan for assessing the student learning outcomes must be attached in the Banner Workflow system.

Not Applicable

N. (Undergraduate proposals only) Describe, in detail, how this curriculum change affects transfer articulation for Michigan community colleges. For course changes, include detail on necessary changes to transfer articulation from Michigan community college courses. For new majors or minors, describe transfer guidelines to be developed with Michigan community colleges. For revisions to majors or

minors, describe necessary revisions to Michigan community college guidelines. Department chairs should seek assistance from college advising directors or from the admissions office in completing this section.

no impact is anticipated

O. Current catalog copy:

PEGN 1500 - Advanced Beginning Swimming

Students will build on skills learned in beginning swimming and develop deep water skills in order to progress to intermediate swimming. American Red Cross Water Safety program progression and certification.

Prerequisites & Corequisites: Prerequisite: PEGN 1490 or equal skills.

Credits: 1 hour

Notes: Open to all students and emphasize the beginning skills in the activity given.

P. Proposed catalog copy:

This class is for those who can swim across a 50-yard pool. In this class you will learn how to: breathe effectively, tread water, dive in from the edge and use swimming equipment (kick boards, pull buoys, hand paddles, fins). You will be introduced to and gain further development of the 4 competitive swimming strokes (Freestyle, Backstroke, Breaststroke & Butterfly). An introduction to flipturns and intervals (50 yard repeats) will be taught. You MUST be comfortable in deep water, if you are uncomfortable in deep water please take PEGN 41490 Swimming-Beginning.

Credits: 1 hour

Notes: Open to all students for general credit or as a co-requisite with HPHE 1701, Health and Personal Practices, to fulfil the Essential Studies requirement for Level 2, Exploration and Discovery, Personal Wellness.
