EMR courses are open to any WMU graduate student who has the appropriate prerequisites. However, several EMR courses typically reach capacity very quickly (EMR 6450, 6650, 6480, and 6580). Please note that for all EMR courses, the department will adhere to a priority enrollment process as follows: **1st priority** = EMR students; **2nd priority** = doctoral students in programs that have required EMR courses approved through the curriculum process; **3rd priority** = doctoral students in the College of Education and Human Development; **4th priority** = any WMU doctoral students; and, **last priority** = other WMU graduate students who have the appropriate prerequisites. If you need an EMR course that is already full, please add yourself to the waitlist; the waitlist is the only way we know if we need more sections. More often than not, the Grand Rapids sections of EMR courses usually have more seats available.
