These elective/no credit workshops are intended for CEHD Ph.D. students who are currently working on their dissertations and would benefit from the camaraderie and accountability of a structured weekly writing workshop, as well as additional support in their writing process from the CEHD Writing Coach. These workshops do not replace work that you need to do with your Dissertation Chair—they are meant to enhance and support that work.

Ideally, participants should have completed Introduction to Doctoral Studies Seminar I (EDLD 6861) and Doctoral Studies Seminar II (EDLD 6862).
