PERFORMANCE TASK ACADEMY

THE QUESTION OF SHAKESPEARE’S AUTHORSHIP: 
ANONYMOUS AND THE WRITING OF HISTORY

prepared by Lofton L. Durham
Assistant Professor of Theatre
Western Michigan University

August 8, 2012

Facsimile reprints from Early English Books Online database, accessed 8/7/2012.
THE QUESTION OF SHAKESPEARE'S AUTHORSHIP:  
ANONYMOUS AND THE WRITING OF HISTORY

Scenario

You are an 11th grade English teacher in a public school in Michigan. Because William Shakespeare is included in the curriculum, students are required to read several plays over the course of high school.

In October 2011, Roland Emmerich, a Hollywood director and producer, releases the film Anonymous, which starts from the premise that William Shakespeare was actually an illiterate, provincial actor who could not have written the plays and poems attributed to him. Moreover, the actual author of the plays, Edward de Vere, Earl of Oxford, has been purposely obscured by history and later manipulation of facts by academics who wish to crown the son of a glove-maker rather than an effete aristocrat as the greatest playwright of the age.

The movie has generated a lot of excitement in your English class, and you are being challenged to take a stand on what the movie says about Shakespeare and the Earl of Oxford. Many of your students are planning to attend the movie's opening weekend.

To complicate matters, your principal, a huge Roland Emmerich fan, is also enthusiastic about the movie, and has suggested that "maybe that Shakespeare guy needs to be taken out of the curriculum." Thus you have decided to spend some time Monday responding to the student challenge, and deciding how to respond to the principal's idea.

You have collected the attached information, and you need to spend the next ninety minutes reviewing the documents and preparing a lesson plan for your class on Monday that directly addresses the student challenge and takes a stand on the movie's premise, as well as a memo to your principal justifying your decision.

You have two tasks:

1. Craft a lesson plan reflecting your stand on the movie's premise.
2. Draft a memo to your principal including the lesson and outlining your reasons for what you want your students to learn.
TASK LIBRARY: QUESTION OF AUTHORSHIP

Document 1. Curriculum guide for the movie, created by Dr. Dominic Kinsley at YMI, Young Minds Inspired.

Document 2. Website of YMI, listing biography and credentials for Dr. Kinsley.

Document 5. Letter to the Editor (NYT) from Roland Emmerich, in response to Shapiro's piece.

Document 7. Series of reprints from Mr. William Shakespeares Comedies, Histories, & Tragedies published according to the True Originall Copies, published in London in 1623.

Document 8. Title page reprint from a play, later attributed to William Shakespeare. This reprint, from 1594, does not list Shakespeare as the author.
Dear Educator,

There’s little debate that William Shakespeare is one of the world’s greatest poets and playwrights. But who is William Shakespeare?

The answer to that question is the starting point for Anonymous, Sony Pictures’ exciting new historical thriller directed by Roland Emmerich (Independence Day, The Day After Tomorrow) and starring Rhys Ifans and Vanessa Redgrave, which arrives in theaters on October 28, 2011.

Anonymous takes us back to a time when plays and politics were intertwined and when uncovered secrets revealed how the works we attribute to William Shakespeare may have actually been written by Queen Elizabeth I’s one-time favorite, Edward de Vere, the Earl of Oxford.

Your students can explore this theory, and gain a fresh perspective on Shakespeare and his times, with this free educational program from Sony Pictures and the curriculum specialists at Young Minds Inspired (YMI). The program includes easy-to-implement activities for English literature, theater, and British history classes. Students will investigate the true identity of William Shakespeare, and discover how power struggles surrounding Queen Elizabeth and the political strife of 16th-century England impacted the players and playwrights of that Golden Age.

We encourage you to share this program with your colleagues. Although these materials are protected by copyright, you may make as many copies as you need for your classes. Please share your comments on the program at www.ymiclassroom.com/anonymousfeedback.html. We depend on your feedback to continue providing free educational programs that make a real difference in students’ lives.

Sincerely,

Dr. Dominic Kinsley
Editor in Chief
Young Minds Inspired

---

**TARGET AUDIENCE**

This program is designed for students in English literature, theater, and British history classes.

**PROGRAM OBJECTIVES**

- To encourage critical thinking by challenging students to examine the theories about the authorship of Shakespeare’s works and to formulate their own opinions.
- To strengthen students’ communication skills through classroom discussion and debate.
- To engage students in creative writing exercises.

**PROGRAM COMPONENTS**

- This one-page teacher’s guide
- Three reproducible activity masters
- A classroom wall poster

**HOW TO USE THIS PROGRAM**

Make a master copy of these materials to share with your colleagues. Each activity is designed for one class period, with additional research, writing, and follow-up lessons. After hanging the wall poster, read the film synopsis aloud prior to beginning the activities. It is not necessary to see the film to complete the activities.

**FILM SYNOPSIS**

Set in the political snake-pit of Elizabethan England, Anonymous (Rated PG-13) speculates on an issue that has for centuries intrigued academics and brilliant minds ranging from Mark Twain and Charles Dickens to Henry James and Sigmund Freud, namely, was William Shakespeare the author of all the plays for which he is given credit? Experts have debated, books have been written, and scholars have devoted their lives to protecting or debunking theories surrounding the authorship of these most renowned works in English literature. Anonymous poses one possible answer, focusing on a time when cloak-and-dagger political intrigue, illogic romances in the Royal Court, and the schemes of greedy nobles hungry for the power of the throne were exposed in the most unlikely of places—the London stage.

**ACTIVITY 1 MISTAKEN IDENTITY?**

In this activity, students are introduced to the ongoing debate about the authorship of William Shakespeare’s works. After discussing the conflicts posed by the historical records and the biographies of the men proposed to have written Shakespeare’s works, students can use the questions on the sheet as a springboard for additional research. Have them write an opinion piece about who they believe is the real author of Shakespeare’s plays, or engage in a class debate on the topic.

Follow-Up Activity: Discuss how (or if) knowing the identity of the author influences our appreciation of the plays.

**ACTIVITY 2 THE SOUL OF THE AGE**

This activity introduces students to Edward de Vere, Earl of Oxford. Students consider the evidence, conduct their own research, and either write a position paper or conduct a debate about the issues. You might have them write a soliloquy for de Vere, either defending him and his anonymity, or denying that he is the author.

Follow-Up Activity: After students have seen Anonymous, explore how the life of a courtier like de Vere is reflected in Shakespeare’s plays. To what extent do characters like Hamlet and Henry V seem to speak from within the world of royalty? To what extent are they portrayed from an outsider’s perspective on that world?

**ACTIVITY 3 A KINGDOM FOR A STAGE**

The London theater of the late 1500s is the focus of this activity, which includes pre- and post-film viewing exercises. Before seeing the film Anonymous, discuss the elements of a Shakespearean tragedy. Use plays you’ve read in class as reference. Point out that a protagonist may have a tragic flaw which causes the character to make errors and contributes to his or her destruction or demise. The character may recognize the errors late in the plot, prompting the audience to feel pity or sympathize.

After seeing the film, have students assess how the plot of the film mirrored a Shakespearean tragedy and what role theater played in the drama.

**DISCUSSION, RESEARCH, AND WRITING ACTIVITIES**

- Have students research the Straffordian and Anti-Straffordian theories. Using their research and knowledge of Shakespeare’s works, they should decide which group they choose to support. Students might write an opinion paper on the topic or engage in a class debate.
- The de Vere vs. Shakespeare of Stratford authorship question has been the subject of mock trials, including one held at American University in 1987, presided over by Supreme Court Justice Harry Blackmun, William Brennan, and John Paul Stevens. Have students research the trial—partial footage is available on YouTube, and segments of the transcripts can be found on PBS’s “The Shakespeare Mystery.” Then, conduct your own mock trial on the subject.
- Experts suggest that knowing the author of the Shakespearean plays and sonnets is important because it affects how they are interpreted and read. Do your students agree or disagree? Does the question about the authorship influence their appreciation of the writings?
- Censorship was a concern for playwrights in the Elizabethan era. Likewise, concern about revealing insider information about the Court is cited as a reason for de Vere’s anonymity. Have students review the Shakespearean plays you are reading to identify religious, social, or political themes and messages that may have been included as propaganda and considered seditious.

activity 1

mistaken identity?

An an a man of limited education who evidently never traveled beyond his native country flourish as a prolific and talented poet and playwright? Theorists who doubt that William Shakespeare from Stratford-upon-Avon authored at least 37 plays and 154 sonnets would say, “No.” And that is the answer explored in the new historical thriller, Anonymous, directed by Roland Emmerich (Independence Day, The Day After Tomorrow) and starring Rhys Ifans and Vanessa Redgrave, which arrives in theaters on October 28, 2011.

Anonymous brings Elizabethan England to life as an era filled with political intrigue, illicit affairs, backstabbing, and espionage—the perfect setting for a subterfuge that may have led to William Shakespeare taking credit for a series of masterpieces that were actually penned by a far more sophisticated author. After all, what do we really know about this man named Shakespeare?

The Upstart Crow

Here’s what the historical records have to tell us:

- William Shakespeare was born in Stratford-upon-Avon in 1564 to John Shakespeare, a glove maker, wool merchant, and town alderman, and his wife, Mary Arden, the daughter of a local landowner.
- Boys like Shakespeare usually attended grammar school in Stratford, where they studied Latin, literature, and rhetoric. There is no reason to believe that Shakespeare ever attended a university.
- In 1582, at the age of 18, Shakespeare married Anne Hathaway, age 26.
- The first evidence that Shakespeare was involved in the theater comes in 1592, when the playwright Robert Greene accused him of plagiarism.
- By the late 1590s, Shakespeare is named as a member of the Lord Chamberlain’s Men, an acting troupe later known as The King’s Men. He became part owner of the Globe Theatre when it opened in 1599, and a shareholder in the Blackfriars Theatre in 1608.
- Shakespeare made his first appearance as an author on the title page of Venus and Adonis, a long erotic poem published in 1593, but the first play to carry his name was not published until 1598. Thereafter, records indicate that he produced approximately two plays a year until 1611.

Reasonable Doubt

Skeptics accept all these facts, but they find it impossible to believe that a mere grammar school graduate could have written the plays and poems attributed to Shakespeare. Wouldn’t it make more sense, they ask, to suppose that William Shakespeare was only the stand-in for a better educated author? Some candidates who have been proposed over the years include:

- Sir Francis Bacon—A Cambridge-educated philosopher, statesman, and scientist, Bacon was a member of Parliament under Queen Elizabeth, and Lord Chancellor under King James I. His writings are echoed in some of Shakespeare’s plays, and some have even found his name encoded in Shakespeare’s verse.
- Christopher Marlowe—The son of a shoemaker, Marlowe graduated from Cambridge in 1587, the same year that his play Tamburlaine revolutionized English drama. He was reportedly murdered in 1593 while awaiting trial on charges of heresy, but some suspect that Marlowe actually fled England and passed his plays on to Shakespeare.
- Edward de Vere, the Earl of Oxford—One of England’s highest ranking noblemen and the son-in-law of William Cecil, Queen Elizabeth’s chief advisor, de Vere had received honorary degrees from both Cambridge and Oxford by the age of 16. His talent for poetry and drama were highly praised, but none of his plays has ever been found, unless, as some believe, they are the plays we attribute to Shakespeare.

Join the Debate

The new film Anonymous invites us to take a second look at our assumptions about Shakespeare and the nature of literary genius. You can start with the questions below:

1. The case against Shakespeare usually rests on the belief that education provides a reliable measure of literary talent. What evidence can you cite to support or refute this belief? How does imagination factor into this theory about the sources of literary talent?
2. Shakespeare doubters also typically count his middle-class background against him, along with his interest in the entrepreneurial side of Elizabethan show business. They point out that characters who match this profile are generally portrayed as buffoons or villains in Shakespeare’s plays. What characters can you recall to support or refute this argument?
3. Shakespeare supporters remind us that doubts about his authorship did not arise until more than 200 years after his death. What social and intellectual developments during that time might have prompted the search for the true author? What developments in our own time may be steering attempts to discover the untold secret of his genius?

Among all those suspected of being the true author of Shakespeare’s plays, the most plausible candidate may be Edward de Vere, the Earl of Oxford. Since 1920, his supporters have gathered evidence to support their claim that he was the secret genius behind Shakespeare’s reputation. Now, that evidence comes to life in the new film Anonymous, directed by Roland Emmerich (Independence Day, The Day After Tomorrow) and starring Rhys Ifans and Vanessa Redgrave, which arrives in theaters on October 28, 2011.

Anonymous unfolds the life of Edward de Vere, tracing his complicated relationship with Queen Elizabeth and her chief advisor, William Cecil, to show how politics and a poetic personality may have entangled de Vere in a situation that brought unexpected fame to an ambitious actor and brought down his own hopes to preserve the British throne. But in the end, we are left wondering: Was Edward de Vere really an invisible giant of his times, or is he only a figment of our imagination?

**Enter Edward de Vere**

Born in 1550, Edward de Vere was tutored at home until age 12, when his father died and he was sent to live with William Cecil, Queen Elizabeth’s chief advisor. Cecil provided him with private tutors in languages, literature, law, music, and the sciences, and by age 16, de Vere had received honorary degrees from both Cambridge and Oxford. At age 21, he took his seat in the House of Lords and married Cecil’s daughter, Anne—a promising start for a career in politics.

After a tour through Europe, de Vere returned to England and became a fixture at Elizabeth’s Court, a patron to poets and scholars, and the sponsor to a company of actors, even taking a lease on the Blackfriars Theatre in London. In 1586, a book called Discourse of English Poetry declared him the “most excellent” poet at court, and in 1589, a book called The Art of English Poesie ranked him first among all poets and named him one of the best playwrights for comedy.

Despite his reputation, little of de Vere’s poetry and none of his plays exist today, which is one reason why some suspect he may have concealed his genius with the help of William Shakespeare. There is, however, one problem with this theory: Edward de Vere died in 1604, long before plays like Othello, King Lear, and The Tempest ever appeared on stage.

**Behind the Scenes**

Setting that problem aside, why would de Vere want to conceal his identity if he really were the author of Shakespeare’s plays? His modern-day supporters answer, “For his own safety.”

- Most importantly, in tragedy, which explores the frailty and failures of mighty princes, remaining anonymous would shield de Vere from accusations that he was exposing flaws in Elizabeth herself and save him from execution for treason.

In short, the politics of the time would have made it almost impossible for de Vere to acknowledge his authorship of “Shakespeare’s” plays. He would have needed a stand-in, and so perhaps, as occurs in the new film Anonymous, he secretly passed his plays along to an up-and-coming actor named William Shakespeare, who kept the secret and the fame.

**Weigh the Odds**

Anonymous presents a compelling portrait of Edward de Vere as the true author of Shakespeare’s plays. Before you see the film, consider the evidence for yourself.

1. In addition to his impressive education and intimate relationship with Elizabethan nobility, supporters of de Vere point to the resemblance between episodes in his life and episodes in Shakespeare’s plays. He saw places like Shylock’s Venice and Romeo’s Verona firsthand, and even escaped from pirates like Prince Hamlet. But why do similarities like these count as evidence of authorship? Should we be able to find an autobiographical element in every great work of literature?

2. Before he became a leading candidate in the search for the true author of Shakespeare’s plays, Edward de Vere was almost erased from the pages of history. Learn a little more about him to decide whether he was a major figure in his day or only a background figure whom our admiration for Shakespeare has put in the spotlight.

3. Given the political risks of the time, it is easy to understand why a high-ranking aristocrat like Edward de Vere could not reveal himself as the author of Shakespeare’s plays. But we can still debate whether it was right to operate behind the scenes in this way. For example, some might call de Vere a coward for hiding his literary identity, while others might argue that he was simply living a lie. What is your view on the moral cost of remaining anonymous in a time of political doubt and social change?
he Elizabethan playhouse was a gathering place for entertainment, information, and social interaction. The first playhouse, called the Theatre, opened in 1576, and before long, there were more than a dozen, including Shakespeare’s Globe Theatre, which opened in 1599. Each playhouse had its own company of actors, who often performed a different play every day of the week, except Sundays, drawing upwards of 3,000 audience members to each show.

This power to draw a crowd made the playhouses seem a potential source of trouble to Queen Elizabeth and her ministers, and beginning in 1582, all plays had to be approved by the Court before they could be performed. Plays that portrayed the monarchy in a positive light were acceptable, but anything that seemed to question royal authority was not, and many playwrights found themselves charged with sedition for an inappropriate joke or unflattering episode from history, including Ben Jonson, Christopher Marlowe, and William Shakespeare.

Fears about the power of performance actually came true in 1601, when the Earl of Essex used the Globe Theatre to help incite a public uprising against the Queen’s counselors. This event is recalled in Anonymous, where it is Edward de Vere who arranges for a performance at the Globe to rally public support for Essex and his men, but as occurred in history, the plan fails, and Essex is put to death.

The downfall of the Earl of Essex has all the core elements of Shakespearean tragedy—a noble protagonist, a moral dilemma, and a fatal end. Before you see Anonymous, talk about how these and other elements of the Essex affair match up with Shakespearean tragedies you have read. Then try to imagine what kind of play Shakespeare would have made of this episode had Essex succeeded.

According to director Roland Emmerich, Anonymous has “all the elements of a Shakespeare play. It’s about Kings, Queens, and Princes. It’s about illegitimate children, it’s about incest, it’s about all of these elements which Shakespeare plays have. And it’s overall a tragedy.” After you have seen the film, use these questions to explore this Shakespearean dimension of the story.

1. How does the plot of the film compare to a Shakespearean tragedy?
2. How does the filmmaker’s use of scenes performed by Elizabethan actors compare to Shakespeare’s use of actors to stage a play within the play?
3. How is William Shakespeare himself portrayed in the film? What characters in Shakespeare’s plays does he resemble? What role does he play in this Shakespearean drama?
4. In the film, we gain insight into the complex world of Queen Elizabeth and the control exerted by her advisor William Cecil. What characters play a role similar to Cecil’s in Shakespeare’s plays? How might the history of Elizabethan England have been changed if de Vere had been the Queen’s closest advisor?

Was
Shakespeare

In Theaters This Fall
YMI offers a unique way to market your message to teachers, preschoolers, young children, 'tweens, teens and young adults. We reach all of these audiences in the uncluttered environment where students spend the better part of their day and where lasting attitudes are formed—in the classroom.

What We Can Do

Based on your marketing needs, YMI will develop an in-school, curriculum-based program comprised of customized print, multimedia and/or interactive online elements.

A YMI program will:

- **Integrate your brand** into lessons and activities that students will spend hours interacting with in a positive and meaningful way.
- **Give your message special credibility and importance** to young people as well as their parents, by having teachers they admire and respect present these materials in the classroom.
- **Extend your message** beyond the classroom via take-home activities.
- **Deliver the message that your company values learning** and cares about families.

Following the completion of each program, YMI gathers teacher feedback and provides post-program analysis of results that measure its success.

Who We Reach

- YMI can reach students and teachers in **preschool through college**. We can also reach athletic coaches, administrators, librarians, and other influential educators.
- Through customized take-home components, YMI programs can also reach **parents and other family members**.
- YMI's **Teacher Connection** is our proprietary and continuously updated database of educators who request and use our programs.
- Our **targeted distribution system** can deliver your program to every school in the U.S. and beyond or to selected schools based on geography, market size, proximity to retail locations, ethnicity, and/or income level.

What Really Sets Us Apart

- We are not traditional advertising; we are **curriculum specialists**. Our focus is on content—content that teachers will approve of and want to use in their classrooms, content that kids will enjoy and take home to their parents, and content that communicates your message with positive impact.
- Teachers know and trust the YMI brand and associate it with quality educational products.
- We are experienced **educators and marketers**. In fact, YMI is the only in-school marketing company that is owned and directed by award-winning former teachers, bringing practical classroom experience to the creation of all projects.

The Experts Behind the Programs
Every member of YMI’s creative team understands education, curriculum development, and classroom needs. When appropriate, YMI brings in field specialists to consult. All programs are reviewed by our skilled and knowledgeable Teacher Advisory Board.

**Donald J. Lay** has more than thirty years business management experience and a strong track record in marketing and advertising. His strengths in new business development and strategic planning are rooted in his experience as Group Publisher for many years at International Thomson, Ltd., where he managed leading trade publications in the consumer electronics, health and beauty aids, licensing, toy, and travel industries. Over recent years, he has helped make educational outreach a key element in reaching corporate objectives such as new product introduction, brand building, sales promotion, and driving store traffic for companies and associations such as Hasbro, Chiquita Brands, Castrol, Subaru, the Rubber Manufacturers Association, Activision, and Twentieth Century Fox.

**Dr. Dominic Kinsley** is a former member of the English Department faculty at Yale University, where he graduated summa cum laude, Phi Beta Kappa, and received his Ph.D. degree. Following his time at Yale, Dr. Kinsley joined Roberta Nusim to begin a career in educational program development. Over the years he has received many awards for his work in educational outreach, including an EdPress Distinguished Achievement Award as author of a study guide for the Steven Spielberg film, *Schindler’s List*; a Mercury Gold Award as scriptwriter for the Ford Motor Company child passenger safety video, "Safety for All Sizes," which featured Will Smith and Jada Pinkett Smith; and an Award of Excellence from *Technology & Learning Magazine* as lead developer of the FOCUS Reading and Language Program, published by PLATO Learning Inc. In addition, "New Perspectives on THE WEST," the website he created for the Ken Burns PBS documentary series *The West* was selected by the National Endowment for the Humanities as one of the top fifty humanities sites on the Internet.
The Top Ten Reasons Shakespeare Did Not Write Shakespeare

Keir Cutler

1  The Real Shakespeare

There never was an Elizabethan playwright named William Shakespeare. There was an Elizabethan actor by the name of William Shaxper or Shaksper born in Stratford-upon-Avon, England. When academics speak of the historical William Shakespeare they are referring to this actor.

There is no evidence to show that William Shaxper was a writer. There are no original manuscripts of the plays or the poems, no letters and only six shaky signatures, all in dispute. Both his parents, John and Mary, were illiterate. His wife Anne Hathaway was illiterate. His children were illiterate, which would make Shaxper the only prominent writer in history whose children are known to have been illiterate.

The actor from Stratford never went to college and as far as can be determined never had any schooling. There has been an attempt by Stratfordians to surmise that William Shaxper attended a grammar school in Stratford. No records of this exist and Shaxper made no mention of this school in his will, a startling oversight if this grammar school was single-handedly responsible for creating perhaps the most literate, scholarly man of all time.

The lack of any letters written by William Shaxper is particularly significant. As a great writer, it is likely he would have written a large number. Voltaire’s collected correspondence totals roughly 20,000 pieces. Shaxper’s, or Shakespeare’s collected correspondence totals exactly zero items.

2  The Pen Name

In Elizabethan times, “Shake-spear” meant “to shake-a-spear.” Shaking a spear is a reference to the Greek goddess of theatre, Pallas-Athena, also known as the “spear-shaker.” This goddess is always depicted carrying a spear, hence the pen name, “Shake-spear.”

Many plays, not credited to “William Shakespeare” appeared under the nom-de-plume “Shake-spear,” including The London Prodigal, The Second Maiden’s Tragedy, The Puritan, The Widow of Watling Street, The Comedy of George a Greene, Fair Em - the Miller’s daughter, The Birth of Martin, The Arraignment of Paris and The Merrie Devil of Edmonton. Since these plays are not believed to have been written by the mythical William Shakespeare, clearly at least one other writer was using the pen name “Shake-spear.”

3  His Vocabulary

The works attributed to Shakespeare contain one of the largest vocabularies of any single English writer. John Milton’s Paradise Lost, for example has about 8,000 different words. The King James Version of the Bible, inspired by God and translated by 48 of Great Britain’s greatest biblical scholars, has 12,852 different words. There are 29,066 different words in Shakespeare’s Canon.

There is a startling incoherence between the story of a young man, with at best a grammar-
school education, wandering into London, getting involved in theatre, and then suddenly, even miraculously, possessing one of the greatest vocabularies of any individual who ever lived.

4 The Famous Doubters

It is now academic dogma to believe William Shakespeare wrote “the works.” Despite evidence that Shaxper could not have been a writer, few colleges or universities ever touch on the authorship question. Nevertheless the case against William Shakespeare’s authorship is strong enough to have attracted many famous individuals.

A partial list of the Shakespeare doubters include Mark Twain, Sigmund Freud, Ralph Waldo Emerson, Charles Dickens, Nathaniel Hawthorne, Thomas Hardy, Oliver Wendel Holmes, Walt Whitman, Otto von Bismarck, Benjamin Disraeli, James Joyce, James Barrie, Charlie Chaplin, Orson Welles, John Gielgud, John Galsworthy, Leslie Howard, Daphne Du Maurier, Malcolm X, Helen Keller, Derek Jacobi, US Supreme Court Justice John Paul Stevens, and Henry James, who wrote, “I am haunted by the conviction that the divine William is the biggest and most successful fraud ever practiced.”

5 His Unnoticed Death

Mark Twain, in his hilarious 1909 debunking of the Shakespeare myth titled “Is Shakespeare Dead?” points out that no one in England took any notice of the death of the actor William Shaxper.

“His death was not even an event in the little town of Stratford. Does this mean that in Stratford he was not regarded as a celebrity of any kind? His death made no more stir in England than the death of any other forgotten theatre-actor would have made. Nobody came down from London; there were no lamenting poems, no eulogies, and no national tears. A striking contrast with what happened when Ben Jonson, and Francis Bacon, and Spenser, and Raleigh and the other distinguished folk of Shakespeare’s time passed from life! No praiseful voice was lifted for the lost Bard of Avon.”

Twain concludes that the man who wrote Shakespeare’s works could not have been William Shakespeare.

6 Not A Single Book

William Shaxper’s will is four pages long and handwritten by an attorney. In these four pages there is no indication that he was a writer. The will mentions not a single book, play, poem, or unfinished literary work, or scrap of manuscript of any kind.

The absence of books in the will is telling, since to write his works the mythical William Shakespeare would have had to have access to hundreds of books. The plays are full of expertise on a wide variety of subjects including contemporary and classical literature, multiple foreign languages, a detailed knowledge of Italy. Italian language and culture, the law, medicine, military matters, sea navigation, painting, mathematics, astrology, horticulture, music and a variety of aristocratic sports like bowls and falconry.

What happened to the hundreds of valuable books he would have assumedly collected during his lifetime? An exhaustive search of every bookcase within fifty miles of Stratford done in the 18th century failed to find a single book formerly belonging to the “world’s greatest author.”
7 Multilingual

The writer of Shakespeare’s plays had command of not only English, but Latin, Greek, French, Italian, German, Spanish and other languages. His French in particular is not of the classroom but reflects the vulgar speech of ordinary people. There are themes and passages from classical works untranslated in Shakespeare’s day. Among many examples, *The Comedy of Errors* was based on a Latin play by Plautus of which there was no translation.

The thousands of new words Shakespeare added to the English language were created from his multilingual expertise.

There is no way of reconciling the immense scholarship evinced in Shakespeare’s works with William Shaxper, who from birth was surrounded by illiterate people, had little or no education, and is believed never to have traveled outside England.

8 Genius

William Shakespeare was a genius.” This answer is generally supplied to all questions relating to Shaxper’s apparent lack of qualifications for the title of “world’s greatest author.” Genius however has its limitations. Historian Thomas Macaulay said: “Genius will not furnish a poet with a vocabulary; it will not teach what word exactly corresponds with his idea and will most surely convey it to others. Information and experience are necessary for strengthening the imagination.”

About one third of Shakespeare’s plays are either set in Italy or make specific references to events and locations there. Genius may explain the literary skills in Shakespeare’s works, but it does not supply knowledge of places never visited or languages never learned.

9 More than 50 Possible Candidates

There is a large selection of individuals who might have had a hand in the writing of Shakespeare’s works. At last count there were more than 5,000 books on the Shakespeare authorship question with more than 50 possible candidates. The three most popular are Francis Bacon, Christopher Marlowe and, currently the strongest alternative candidate, Edward de Vere, the Earl of Oxford. All 50 candidates have one thing in common: each is more likely to have written the works of Shakespeare than William Shaxper himself.

Elizabethan England was a land of brutal censorship. There was no freedom of speech. The Master of the Revels and the dreaded Star Chamber had the power to imprison and torture any writer. The playwright Thomas Kyd was essentially tortured to death. Christopher Marlowe was facing torture when he was murdered or, as some believe, staged his own murder and escaped. Playwrights Ben Jonson, Thomas Nashe, George Chapman, John Marston were all temporarily imprisoned for their writings.

William Shaxper, supposedly one of the most prolific and successful of the Elizabethan playwrights, was never arrested. This fact is particularly astonishing given that the Earl of Essex sponsored a performance of his *Richard II* to encourage a rebellion against the Queen Elizabeth I. The Earl of Essex was arrested and executed, but Shaxper was never so much as questioned.

At such an incredibly dangerous time for artists, remaining anonymous for an Elizabethan playwright would have been a wise choice.
10 Stratford

Stratford-upon-Avon is one of the most successful tourist sites in England, though only about 10% of its visitors ever attend a play. People come not to see theatre but as pilgrims to worship a cult hero in his birthplace.

As with virtually everything associated with the “historical” Shakespeare, the tourist sites in Stratford are pure speculation. “It is fairly certain” that the house on Henley Street is where Shakespeare was born and brought up, complete with, as the birthplace website proudly states, “recreated replicas.” The grammar school in Stratford has lost all records from the period, but “is almost definitely” where Shakespeare received his education. This institution even claims to have his original desk, which is “third from the front on the left-hand side.” On and on the fantasy is created with an avalanche of qualifiers like, “most biographers agree,” and “we are permitted to think,” and “we are warranted in believing,” etc.

In 1969 the people selling tours of Shakespeare home were sued under England’s Trade Descriptions Act, which forbids false statements and claims in advertising. The court ruled that the Act did not apply since the historical site was a “Trust” and not a business.

The word “trust” perfectly applies to all things related to the playwright William Shakespeare; “trust” being defined as the “acceptance of the truth of a statement without evidence.” No one knows for sure who wrote the works attributed to Shakespeare. What can be said with some certainty is that William Shaxper didn’t.

Hollywood Dishonors the Bard
By JAMES SHAPIRO

ROLAND EMMERICH’S film “Anonymous,” which opens next week, “presents a compelling portrait of Edward de Vere as the true author of Shakespeare’s plays.” That’s according to the lesson plans that Sony Pictures has been distributing to literature and history teachers in the hope of convincing students that Shakespeare was a fraud. A documentary by First Folio Pictures (of which Mr. Emmerich is president) will also be part of this campaign.

So much for “Hey, it’s just a movie!”

The case for Edward de Vere, 17th Earl of Oxford, dates from 1920, when J. Thomas Looney, an English writer who loathed democracy and modernity, argued that only a worldly nobleman could have created such works of genius; Shakespeare, a glover’s son and money-lender, could never have done so. Looney also showed that episodes in de Vere’s life closely matched events in the plays. His theory has since attracted impressive supporters, including Sigmund Freud, the Supreme Court justice Antonin Scalia and his former colleague John Paul Stevens, and now Mr. Emmerich.

But promoters of de Vere’s cause have a lot of evidence to explain away, including testimony of contemporary writers, court records and much else that confirms that Shakespeare wrote the works attributed to him. Meanwhile, not a shred of documentary evidence has ever been found that connects de Vere to any of the plays or poems. As for the argument that the plays rehearse the story of de Vere’s life: since the 1850s, when Shakespeare’s authorship was first questioned, the lives of 70 or so other candidates have also confidently been identified in them. Perhaps the greatest obstacle facing de Vere’s supporters is that he died in 1604, before 10 or so of Shakespeare’s plays were written.

“Anonymous” offers an ingenious way to circumvent such objections: there must have been a conspiracy to suppress the truth of de Vere’s authorship; the very absence of surviving evidence proves the case. In dramatizing this conspiracy, Mr. Emmerich has made a film for our time, in which claims based on conviction are as valid as those based on hard evidence.
Indeed, Mr. Emmerich has treated fact-based arguments and the authorities who make them with suspicion. As he told an MTV interviewer last month when asked about the authorship question: “I think it’s not good to tell kids lies in school.”

The most troubling thing about “Anonymous” is not that it turns Shakespeare into an illiterate money-grubber. It’s not even that England’s virgin Queen Elizabeth is turned into a wantonly promiscuous woman who is revealed to be both the lover and mother of de Vere. Rather, it’s that in making the case for de Vere, the film turns great plays into propaganda.

In the film de Vere is presented as a child prodigy, writing and starring in “A Midsummer Night’s Dream” in 1559 at the age of 9. He only truly finds his calling nearly 40 years later after visiting a public theater for the first time and seeing how easily thousands of spectators might be swayed. He applauds his art’s propagandistic impact at a performance of “Henry V” that so riles the patriotic mob that actors playing the French are physically assaulted. He vilifies a political foe in “Hamlet,” and stages “Richard III” to win the crowd’s support for rebellious aristocrats.

De Vere is clear in the film about his objectives: “all art is political ... otherwise it is just decoration.” Sony Pictures’ study guide is keen to reinforce this reductive view of what the plays are about, encouraging students to search Shakespeare’s works for “messages that may have been included as propaganda and considered seditious.” A more fitting title for the film might have been “Triumph of the Earl.”

In offering this portrait of the artist, “Anonymous” weds Looney’s class-obsessed arguments to the political motives supplied by later de Vere advocates, who claimed that de Vere was Elizabeth’s illegitimate son and therefore the rightful heir to the English throne. By bringing this unsubstantiated version of history to the screen, a lot of facts — theatrical and political — are trampled.

Supporters of de Vere’s candidacy who have awaited this film with excitement may come to regret it, for “Anonymous” shows, quite devastatingly, how high a price they must pay to unseat Shakespeare. Why anyone is drawn to de Vere’s cause is the real mystery, one not so easily solved as who was the true author of Shakespeare’s plays.

*James Shapiro, a professor of English at Columbia, is the author of “Contested Will: Who Wrote Shakespeare?”*
To the Editor:

James Shapiro claims that a study guide for the film “Anonymous” that Sony Pictures is distributing is aimed at “convincing students that Shakespeare was a fraud.” The professor doth protest not too much, but too wrongly. The free guide was distributed by Young Minds Inspired, whose curriculum specialists have helped students explore history through films like “Schindler’s List” and Ken Burns’s documentary about Lewis and Clark.

Its editor is Dr. Dominic Kinsley, who once taught Shakespeare at Yale, and it is designed to help students weigh the evidence on both sides of the Shakespeare debate to “gain a fresh perspective on Shakespeare and his times.”

Teachers can ride the cultural wave created by the film to pique students’ interest in Shakespeare’s plays and sonnets and the era in which they were created. Where’s the harm? The more time young people spend studying such great works — no matter who the author! — the better off they, and society, will be.

ROLAND EMMERICH
Los Angeles, Oct. 19, 2011
The writer directed “Anonymous.”
To the Editor:

The protagonist of “Anonymous” — an Elizabethan courtier poet and playwright named Edward de Vere, Earl of Oxford — did one thing that all scholars agree on. He died in 1604. “Anonymous” says de Vere also wrote the Shakespeare plays and poems.

Scholars have for generations brandished de Vere’s death date like a broadsword, because, they say, plays like “Macbeth” and “The Tempest” were clearly written after 1604. So de Vere couldn’t have written them.

Seems reasonable. But the evidence that places “The Tempest” and its ilk after 1604 is actually the kind of stuff dreams are made on. Recent studies of “The Tempest,” for instance, have lit upon inspirations from half a century before de Vere’s death.

Yes, there is a grave chronology problem. New research suggests that the author wrote no new plays or poems after 1604. But Will Shakespeare had another 12 years to live.

MARK ANDERSON
The writer is the author of “‘Shakespeare’ by Another Name: The Life of Edward de Vere, Earl of Oxford, the Man Who Was Shakespeare.”
To the Reader.

This Figure, that thou here seest put,
   It was for gentle Shakespeare cut;
Wherein the Grauer had a strife
   with Nature, to out-doo the life:
O, could he but have drawne his wit
   As well in brasse, as he hath hit
   His face; the Print would then surpasse
   All, that vvas euer vvrit in brasse.
But, since he cannot, Reader, looke
   Not on his Picture, but his Booke.

B. I.
The Epistle Dedicatory.

unto their parent. There is a great difference, whether any Book be choos'd or Patronize; but finde them: I his bath done bath. For, so much were your L.L. likenes of the several parts, when they were att'd as before they were published, the Volumes ask'd to be yours. We have but collected them... and done an office... to the dead, to preserve his Orphange, Guardians; without ambition either of selfe-profit, or fame: only to keep the memory of so worthy a Friend... Fellow-Clubmen, so was our Shakespeare, by humble offer of his playes, to your most welcome... patronage. Wherein, as we have softly observed, no man to compare your L.L. but with a kind of religious address... it hath bin the height of our care, who are the Pretenders to make the present worthy of your H.H. by the perfection. But there we must also crave our abilities to be considered, my Lords. We cannot go beyond our own powers. Country hands reach forth milke, cresses, onions, fruits, or what they have: and many Nations (we have heard) that had not grumes & incense, obtained their request with a housewife. It was no fault to approach their God, by what means they could; and the most, though meanest, of things are made more precious, when they are dedicated to Temples. In that name therefore, we must humbly congratulate... to your H.H. these remains of your servient Shakespeare, that what delight is in them... may be ever your L.L. the reputation his, & the faults ours, if any be committed by a page... so careful to shew their gratitude both to the living, and the dead, as is

Your Lordships most bounden,

John Heminges.

Henry Condell.
To the memory of my beloved,
The AUTHOR
Mr. William Shakespeare:
And what he hath left us.

Doth not the name of Shakespeare on thy name,
On it than ample thy book, and fame:
In which I am glad my writings to be found,
As another Man, nor Moll, can profit so much.
'Tis true, and all most justly, but they may not see the gods, since none yet open'st:
For freely I have seen the map of the right,
Or blind a direction, which I do not advance:
The truth, but sages, and wits of all by chance,
Or crafty Malice, might pretend the praise,
And thank to none, who is blind to rage.
These are, as some inform me, read, or where,
Should praise a nation, which could have been more:
But thou art praising them, and indeed
Shall all in future of thee, or the book,
I therefore will begin, touch of the day:
The applause! I delight in the wonder of our stage!
My Shakespeare, why, will none judge there by Chance, or Spectacles, or bid Beaumont try
A little further, to make thee a name:
You are a Musiett, without a tune,
And are alone still, while thy name doth rise,
And the applause to read, and praise is gone:
That I not more than thus, my brain's escape:
I mean with great, but disquieted Minds:
For if I thought my judgments were of versus,
I should commit them freely in thy pages,
And I, less force than dispose our Lady out there,
By burning words, or Malicious may thy son.
And though thou hast found, loud Latins, and wise Greek,
From themes to denote there, should not my feet
For names, but call forth should'st, e.g., Achilles,
Epictetus, Sophocles to y
P uncon, Acton, son of Cebes dead,
To life again, to hear thy Muse to read,
And show a Stage: or, when thy verses were on,
Know them alone, for the companion.
Upon the Lines and Life of the Famous Sceenicke Poet, Master William Shakespeare.

HSH. HOLLAND.

Ben: Ionson.
TO THE MEMORIE
of the deceafted Author Mafter
W. SHAKE-SPEARE.

Shake-speare, at length thy pious followers give
The world thy Works : thy Works, by which, most fine
Thy Tongue, thy name most: when that flame is went,
And Time diffinues the Stratford Monuments,
Here we allie shall view thee still. This Book,
When Brifle and Marble fade, shall make thee look
Fresh to all Ages; when Pastorie
Shall boast what's new, Phlox old is prodigy.
That is not Shake-speare's, ere Lyce, such Voice
Here shall renew, redeem thee from thy Tomb.
Not Fire, nor crouching Age, as Noli, said,
Oft, ten the twin-born Book, shall once invade.
Nor shall we believe, or think thee dead
(Though now in fancy, till our banished Stage be so false)
(Imposibyle) with some new Brute, t'out-do
Euphues of Juicet, and her Romeo,
Or tell, I heare a Scene more nobly take,
Then where the half-Scared parsing Romans spake.
Till then, till all of thy Volumes rest
Shall with more fire, more feeling be express'd
O'er our Shake-speare's, thou art not yet dry,
But crowned with Laureat, live eternally.

L. Digges.

To the memory of M. W. Shake-speare.

WV: I wondered (Shake-speare) that thou wast so joint
From the World: Stage, to the Greats-Tyring-room.
We thought thee dead, but this thy printed worth,
Tell thy Spectators, that thou wentst but forth
To enter with applause, an other days,
Can dye, and live to a second part.
That's but an Exit of Mortalitie;
This, a Re-entrance to a Flowers.

I. M.
The Workes of William Shakespeare,
