

Please Join a Public Rally in Support of Our Children's Trust Lawsuit

Bronson Park, 220 S. Rose St., Kalamazoo
Sunday, October 28 3-4 pm

Twenty-one students, supported by Our Children's Trust, allege that the U.S. government has knowingly violated their constitutional rights for over 50 years by causing and contributing to climate change. On October 29th they will march into court - with America standing behind them -to demand a science-based National Climate Recovery Plan: a plan that would end the reign of fossil fuels and require the United States government to do its part to address dangerous climate change for young people and all future generations.

We want the world to know that the American people stand with these 21 young people in demanding a National Climate Recovery Plan.

Join us for a rally at Bronson Park on October 28th to be a part of the #TrialoftheCentury and support these young climate warriors. Our freedom depends on a climate system that will sustain human life. Let's show the government that it has a constitutional duty to prepare and implement a Climate Recovery Plan to protect our basic and most fundamental rights!

Hear from climate change legal experts, students, and candidates Sean McCann and Jon Hoadley about what's at stake, and what we can do about it.

Co-sponsored by WMU Climate Change Working Group, Organize West Michigan, Citizens Climate Lobby, Sunrise Movement West Michigan, Kalamazoo Nonviolent Opponents of War, Kalamazoo County Democratic Party, Kalamazoo Interfaith Coalition for Peace and Justice, Sierra Club West Michigan, and 350 Kalamazoo
