The Van Riper Language, Speech and Hearing Clinic is operated by the Department of Speech Pathology and Audiology at Western Michigan University. Audiological services are provided by faculty members or by student clinicians under the direct supervision of faculty members. All faculty members who provide or supervise audiological services hold the Certificate of Clinical Competence from the American Speech-Language-Hearing Association.

Our mission is two-fold:

- Provide well-rounded clinical experiences for students
- Provide exemplary evidence-based care to our clients
Behavioral Health Services at Western Michigan University is a licensed and accredited outpatient substance use and behavioral health disorder treatment provider in Michigan.

Substance use disorder and other behavioral health treatment services are provided by therapists licensed and credentialed in the state of Michigan who have extensive training in the delivery of assessment, individual, group and family treatment services.

Your benefits cover...

- Assessment for substance use, mental health or other behavioral health challenges
- Outpatient counseling includes individual and group counseling
- Specific services for young adults, women and families experiencing substance use or mental health problems
- Consultation, information and education regarding substance abuse and mental health problems

The Southwest Michigan Children’s Trauma Assessment Center was established to provide assessments for children who have experienced trauma and adverse childhood experiences. The CTAC team also provides professional training and coordinates projects in order to create trauma-informed systems and services.

CTAC serves children ages three months to 17 years old. Over 90% of the children who have received assessment services are in or have been in foster care. Their traumatic exposure may include:

- neglect
- physical abuse
- psychological abuse
- sexual abuse
- prenatal exposure to alcohol and/or drugs
- exposure to domestic violence or community violence
- removal from biological family and/or multiple moves within the foster care system
