- Attended the American Student Government Conference in Chicago.

Statement of Solidarity

WESTERN STUDENT ASSOCIATION

The Western Student Association, the representative governing body of the 23,000 students at Western Michigan University, stand in solidarity this week, and every week with those across the country who are affected by racism, white supremacy, police brutality, and inequality. As the acting voice representing the students at WMU, we denounce all forms of bigotry, and unite against the discrimination and intolerance that exists today.

The students at WMU acknowledge that every student encounters different struggles, but right now we rise in solidarity with Black Lives Matter.

The Western Student Association will work to facilitate discussion and dialogue on campus to foster empathy and understanding.

With making a change, we need to be the change; it starts with us.
