Program Deletions

A photograph of a dumbbell and weight plates on a concrete floor. The dumbbell is positioned diagonally in the upper right, and several weight plates are scattered in the lower right. The background is a textured, grey concrete surface. The text is overlaid in the center in a white, serif font.

HOW HARD IS THAT?

ISN'T ALL THE WORK DONE
WHEN IT GETS TO YOU?

Let's look at a "New Undergraduate Program"

USC must evaluate:

- Does the program address the strategic plan of the university?
- What will students be able to do when they complete the program?
- How long will it take? Is it more than 122 credit hours?
- How about that catalog language? Is it clear and consistent?
- How does this new program affect other colleges / departments?

Focus: Student Learning Outcomes

Verbs can advertise
your program!

Successful Sam will
be able to:

- Identify, Understand
- Apply, Analyze
- Create
