Curriculum Review Process Changes

The Faculty Senate Executive Board would like to congratulate Lisa DeChano-Cook as being named the University Curriculum Manager.

In May 2023 the Faculty Senate approved MOA-23/01: Recommended Revisions of General Principles of Curriculum Change. The updated policy can be found on the Faculty Senate [Curriculum Review website](#).

Specific items to take note are:

- Roles of responsible parties specified
- Process flowcharts
- Requirement to resolve all content issues prior to the proposal approval at the college level
 - college dean mediates among departments within a college
 - Provost mediates among multiple colleges
- Concentrations are to be changed to majors
 - two new forms have been created in [Curriculog](#) for this purpose (one for undergraduate and one for graduate)
- Improved guidance on appeals processes and procedures

Also new to the Faculty Senate Curriculum Review website are [Frequently Asked Questions](#).

Please take the time to update yourself on the revised processes when creating your curriculum proposal.
