The Department of Chemistry

Presents

Dr. Amanda Garner, Assistant Professor
University of Michigan
College of Pharmacy, Department of Medicinal Chemistry

Chemical Probing of Translational Control and microRNA Biology

Brief Abstract:

This talk will highlight the efforts in the Garner Laboratory in investigating coding and non-coding RNA biology using medicinal chemistry, chemoproteomic and chemical biology-based approaches.

Friday, April 5, 2019
1:00 pm
Chemistry Building, Room 1260
