Global & International Studies (INTL 2000)
Aviation (AVS 1200)

World Languages:

fall/spring: Chinese, Arabic, Sign Language
fall only: Greek, Russian

Exploration courses:

HNRS 4700: Technology in the Fine Arts

This class will explore the ongoing relationship between the fine arts and technology, with an emphasis on recent practices and emerging technologies. Students will learn how musicians, theatre artists, choreographers and visual artists have taken advantage of technology to meet their needs, and how technology has influenced and inspired them to explore new creative territory.

HNRS 4700
Professor
Kevin Abbott

ANTH 2400:

Principles of Cultural Anthropology

An introduction to the basic concepts, theoretical approaches, and methodological strategies employed in the study of traditional and contemporary sociocultural systems throughout the world. Attention given to research techniques and the insights derived from detailed case studies and cross-cultural comparisons.

MUS 1520:

Rock Music: Genesis & Development

A study of rock and roll music since its inception in the mid-1950s. The impact of black rhythm and blues, jazz forms, and radio and television upon early rock will be studied as well as further evolutionary developments such as "do-wop", soul music, folk rock, psychedelic rock, jazz rock, the various English schools, heavy metal, and punk styles, to mention but a few.

GEOS 1000:

Dynamic Earth

Learn about the workings of our dynamic Earth, with some discussion of other planets. Topics include plate tectonics, evolution, earth materials, volcanoes, earthquakes, earth hazards, rivers and flooding, groundwater and pollution, glaciers and deserts, oceans and coasts, energy resources, and climate change.

GEOG 3110:

Geography of Michigan

An introduction to the physical and cultural patterns in Michigan with emphasis on an understanding of the distribution of population, resources, and forms of economic activity. Attention is also focused upon relevant current State problems.
