

AFRICA

The Center for African Development Policy Research
(CADPR)

presents a lecture by

Dr. Mo Hunsen
Chair, Department of Chemistry
Kenyon College, Ohio

**“Sustainable Chemistry and Business
in the United States and Africa”**

3 p.m. Wednesday, April 3
Room 1220 of Chemistry Building

Dr. Mo Hunsen is chair of the Department of Chemistry at Kenyon College in Gambier, Ohio. His research interests focus on green chemical and enzymatic catalysis in carbohydrate and polymer chemistry. His research also involves the use of natural product based prevention of cancer and Alzheimer's disease.

Hunsen has a passion for exploring how green and sustainable chemistry and technology could serve as a platform for green businesses that transform cheap and abundant natural resources to value-added products. He is currently associate editor of *Green and Sustainable Chemistry* and on the editorial board of *Organic Chemistry Current Research*, and the e-journal *International Journal of African Development* at WMU. He received a Ph.D. degree in organic chemistry from Michigan State University in 2001.
