[https://www.acha.org/documents/resources/guidelines/ACHA\\_Tuberculosis\\_Screening\\_April2023.pdf](https://www.acha.org/documents/resources/guidelines/ACHA_Tuberculosis_Screening_April2023.pdf)

3. Have you had frequent or prolonged visits to one or more of the countries or territories listed above with a high prevalence of TB disease?
4. Have you been a resident and/or employee of high-risk congregate settings (e.g., correctional facilities long-term care facilities, and homeless shelters)?
5. Have you been a volunteer or health care worker who served clients who are at increased risk for active TB disease?
6. Have you ever been a member of any of the following groups that may have an increased incidence of latent *M. tuberculosis* infection or active TB disease: medically underserved, low-income, or abusing drugs or alcohol?

**If you were born in one of the countries or territories above**, WMU requires you to have TB testing here on campus. You will be able to schedule an appointment when you arrive at orientation.

**If the answer is YES to any of the above questions** and you are not from one of the countries above, you may have been exposed to TB and will want to consider getting a QFG lab test upon arrival to campus.

**Sindecuse Health Center offers** testing and treatment for Tb exposure. To schedule an appointment visit <https://healthmanager.wmich.edu/> or see our representative at orientation.
