WMU Curriculum Guide for Freshwater Science and Sustainability

Program description and notes:

- WMU and Northwestern Michigan College in Traverse City have collaborated to create this new program, which became a WMU offering effective Fall 2014;
- Provides the broad interdisciplinary training that will enable graduates to help solve problems involving the quality, availability, and use of freshwater;
- The program prepares students for positions in the field such as: watershed managers, freshwater quality analysts, sustainability coordinators, environmental and resource managers, and/or for graduate school;
- The program requires 92 credit hours of coursework. All WMU degrees require at least 122 credit hours for graduation;
- There are two options for students to complete this program:
  - The first is to take as many courses as you can at Bay and then to transfer to WMU (in Kalamazoo) for the last two years of the program in regular classroom format;
  - The second option is to take a combination of online and hybrid courses. The hybrid courses include some online coursework and face-to-face meetings which are only available in Traverse City at this time;
- No minor is required;
- There will be a significant fieldwork component to several courses in the program;
- Given the interdisciplinary nature of the program, it is very important that students work regularly with program advisors (see contact information below). Please consult with a program advisor and review the schedule of courses closely when selecting your classes.

Courses that may be taken at Bay:

<table>
<thead>
<tr>
<th>WMU courses</th>
<th>Bay equivalent courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 1200</td>
<td>ANTH 201 or 201H</td>
</tr>
<tr>
<td>ECON 2010 or 2020</td>
<td>ECON 132 or 131</td>
</tr>
<tr>
<td>MATH 1110</td>
<td>MATH 105</td>
</tr>
<tr>
<td>STAT 3660</td>
<td>MATH 210</td>
</tr>
<tr>
<td>BIOS 1620</td>
<td>BIOL 110</td>
</tr>
<tr>
<td>BIOS 1610</td>
<td>BIOL 112</td>
</tr>
<tr>
<td>CHEM 1100 and 1110</td>
<td>CHEM 110</td>
</tr>
</tbody>
</table>
Students in this program must earn a grade of “C” or better in all courses counted toward their major. Courses that transfer to WMU must also have a minimum of a “C” grade in order to transfer in.

For further information about this program visit the Environmental and Sustainability Studies program website, linked in the WMU website’s “Academics” (undergraduate) directory pages.

General Education Requirements:

- Please find information about general education requirements on this link;
- The College of Arts and Sciences requires a world language, which is not fulfilled by the MACRAO or the Michigan Transfer Agreement (MTA). This requirement can be met in one of three ways:
  - Completing two years of one high school language with a B- or better in the last (fourth) semester, or at any point after that if more than two years are completed;
  - Completing two semesters of a college-level language (or American Sign Language);
  - Placing into the 2000 or higher level on a proctored language proficiency exam at WMU;
- The College of Arts and Sciences curriculum requires a critical thinking course, to be chosen from Proficiency 4c, if MACRAO or MTA has not been met.
