

Biology

96% of undergraduate and 100% of graduate degree recipients were actively engaged.

	Undergraduate		Graduate degrees	
	count	percent	count	percent
Actively Engaged	22	96%	11	100%
Employed full time	15	65%	7	64%
Employed part time	2	9%	1	9%
Continuing education	5	25%	3	27%
Not Actively Engaged	1	4%		
Looking for work	1	4%		

Full-time Employment

- Median salary for undergraduate degrees was \$35,000 to \$40,000 (5 responses).
- Median salary for graduate degrees was \$52,500 to \$57,500 (6 responses).
- 88% had a job in Michigan.
- 88% had a job related to their degree.
- 75% were satisfied with their job.

Survey Population

	Graduates	Responses
All degrees	64	34 (68%)
Bachelor's	50	23 (46%)
Master's	13	10 (77%)
Doctoral	1	1 (100%)

Job Titles and Employers

Analyst at Pfizer
 Assistant Natural Resource Educator at MI DNR
 Assistant Scientist at Kalsec
 Associate Chemist at ICM Products Inc.
 Avian Field Ecologist at University of Georgia
 Clinical Laboratory Scientist at Charles River Laboratories
 Lab Technician at Bells Brewery

Marijuana Infused Product Technician at Green Peak Innovations
 Paramedic at Life EMS
 Research Associate at Charles River Laboratories
 Research Coordinator at Nick Haddad
 Research Technician at Charles River Laboratories
 Scientist at Charles River Laboratories

Continuing Education

Masters in Agriculture at the University of Helsinki
 Masters in Biology at WMU

Masters in Biomedical Engineering at WMU

**Eliza Foli, Bachelor of Science in biological sciences, 2019
 Seasonal Avian Ecologist at the University of Georgia**

"I would not have known about the world of avian research if I had not gotten involved in the research labs of Dr. Gill and Dr. Vonhof. They taught me what truly goes into research as well as how to think critically during this process. Working in their labs was essential for me to find my place as biology student and to open my eyes to what career opportunities I actually had.

Get involved in as many internships or research positions you possibly can. Develop relationships with faculty members in the biology department. When you find something that makes you curious, work harder at that and remember that if you are doing something, you should be giving it your all."

Biomedical Sciences

100% of degree recipients were actively engaged.

	count	percent
Actively Engaged	65	100%
Employed full time	29	45%
Employed part time	1	2%
Continuing education	35	54%

Full-time Employment

- Median salary was \$30,000 to \$35,000 (11 responses).
- 93% were employed in Michigan.
- 85% had a job related to their degree.
- 82% were satisfied with their job.
