

**Western Michigan University  
Medical Humanities Workgroup**

**Conference Program  
September 26-27, 2013**

**Conference Website:** Further conference details, including electronic copies of the program and abstracts of each presentation, as well as links to previous conference pages, can be found on the conference website: <http://www.wmich.edu/medicalhumanities/conference2013/>.

**Our Sponsors:** WMU School of Medicine, Bronson Healthcare Group, Office for Vice President of Research, Medieval Institute, Center for the Study of Ethics in Society, School of Music, Department of Philosophy

**CME Accreditation:** This activity has been planned and implemented in accordance with the Essential Areas and policies of the Michigan State Medical Society Committee on CME Accreditation through the joint sponsorship of Western Michigan University School of Medicine and WMU. Western Michigan University School of Medicine is accredited by the MSMS Committee on CME Accreditation to provide continuing medical education for physicians.

Western Michigan University School of Medicine designates this live activity for a maximum of 15.5 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The MSMS Committee on CME Accreditation is recognized by the Accreditation Council for Continuing Medical Education (ACCME). The Michigan Board of Nursing accepts continuing education credits from the ACCME.

**About Us:** Under the direction of Dr. Fritz Allhoff and Mr. David Charlton, the Western Michigan University Medical Humanities Workgroup works to coordinate individuals from the campus and broader Kalamazoo community with interests in the humanistic dimensions of medicine and health. To this end, we understand the medical humanities quite broadly, including, but not limited to: medical ethics, history of medicine, medical anthropology, religious approaches to health, health narratives, health education, conceptions of wellness, and so on.

The workgroup's mission, initially simply to aid the collaboration of people with shared interests and celebrate the strengths of WMU and the surrounding community, has expanded to include planning and hosting academic events—both at the undergraduate and professional levels, providing a platform for extramural funding and research, and assisting in the development of new curricula in the WMU School of Medicine and in the WMU College of Arts and Sciences—with respect to the latter, in the form of a new undergraduate medical humanities minor. With the continued interest and support of the campus and local community, the workgroup continues to flourish into a dynamic, powerful resource which serves myriad research and educational goals.
