

Authorization to Change Aerospace Engineering Curriculum

Name: _____ **WIN:** _____

I am signing this form requesting to change to the 2016-17 Aerospace Engineering curriculum. In doing so I understand the following:

- AE/ME 2500, Materials Science can no longer be used in the 2016-17 AE curriculum. This means if I have taken this course I will be required to take an additional course for graduation that my current curriculum would not require. Not utilizing this credit will not change my WMU GPA.
- Similarly, if I wish to take ME 3650, Machine Design, I understand I will still be required to take ME 2500 as a prerequisite course.
- Any current plan to graduation I have on file is subject to change and that may affect my graduation term.
- This may also require a revised or new graduation audit to be submitted.
- Any additional major or minor must be updated to the 2016-17 catalog year. I have discussed this change with my other major/minor Advisor(s) and am agreeing to any changes/updates that will be required.

Student Signature: _____ **Date:** _____

Academic Advisor Signature: _____ **Date:** _____

*****OFFICE USE ONLY*****

Catalog year changed on:

- Program code
- Aerospace Major code
- Additional Major code
- Minor code(s)

Change entered by _____ Date: _____
