** Free electives can be used for additional CS electives, a minor, or any other course. The number of free electives needed equals the number of hours needed to reach the 122 hour graduation requirement. It may be necessary to use some free electives as additional gen ed courses to reach minimum 37 credits required for the gen ed program.

CSIJ requires 42 hours of computer science courses (including CS 1310, see details above) and 30 hours of approved math, stats, lab science or other quantitative courses with at least 15 hours of approved math/stats courses (Calc I and above).

Courses used for graduation for CSIJ can include no more than 2 courses with D or DC grade, including CS courses, ECE 2500 and any courses counted as Math/Stat/Sci requirements or electives.

A grade of C or higher is required for all courses which serve as prerequisites.
