

IEE&EM graduate students are expected to attend all classes starting from the first class period of the semester through the final exam week. It is the student's responsibility to know when the semester starts and stops (note the University Calendar is posted on the WMU website for several years in advance). Individual IEE&EM faculty members establish the attendance expectations in their classes, but be aware that lack of attendance may adversely affect your learning in the course as well as your final course grade.
