Southwestern Michigan Engineering Societies

41st Annual
Engineers Week Dinner
February 18, 2020
at WMU Fetzer Center

For the last few months the Engineers Week Dinner Steering Committee has been preparing for the 41st Annual Engineers Week Dinner event. Much of the logistics planning is now finalized, however, we are still in need of sponsors.

As in past years, we are reaching out to local businesses, professional societies, groups and individuals to sponsor this event. Your financial support will be used to underwrite speaker expenses, award scholarships, and subsidize dinner registration fees for hundreds of students. Options for general and scholarship donations are listed below.

In addition to general contributions, the Engineers Week Dinner Planning Committee offers the opportunity for you to sponsor a table of up to eight guests. The cost is $500 per table. This is a great way to recognize employees’ contributions.

With your help, the 2020 Engineers Week Dinner will be even more successful than previous editions. Please consider a financial contribution to the 41st Annual Southwestern Michigan Engineering Societies’ Engineers Week Dinner.

This year’s guest speaker is Dr. Mark B. Moldwin from University of Michigan – Ann Arbor. Dr. Moldwin is the Arthur F. Thurnau Professor of Climate and Space Sciences, Engineering and Applied Physics at the University of Michigan. He is currently the Executive Director of NASA’s Michigan Space Grant Consortium, President of the American Geophysical Union’s (AGU) Education Section, and the 2019-2020 US-Norway Fulbright Arctic Chair. Dr. Moldwin received his Ph.D. in Astronomy/Space Physics from Boston University and was awarded a B.A. in Physics with Honors from the University of Alaska-Fairbanks.

Mark’s presentation is titled Space Weather Impacts on Human Exploration of Mars. This presentation will outline the rationale, current plans, and limitations of future human exploration of Mars in the context of space weather based and ground-based technology and society.

Event Schedule: Fetzer Center 5:30pm - Social Hour 6:30pm - Dinner/Awards 7:30pm - Presentation

To Contribute – You can make donations by filling out the form below.
(you can also contribute online at http://wmich.edu/engineer/eweek).
